# Message from the Chairman

The year 2016 marks many positive Historical High records of our Group of Companies such as Highest Annual Profit ever, about 1062 million baht, Highest Quarterly profit ever 4 times in a year, Largest Portfolio ever, more than 10 billion baht, Highest Annual Revenue, about 2.9 billion, and so on.

These are the results of our Creative Business model, 'Digital Finance Platform,' which proved its potential of fast and certain growth as shown by our Company's performance in Cambodia. Also, because of this digital finance platform, our Company can keep OPEX and investments costs low, so that profitability of the business will be remarkably higher and expansion of the business can be extremely fast, especially because the new business model is planned and integrated to fit to the Rural Areas of ASEAN where the Emerging Volume Zone population is located.

The Digital Finance Platform is an unique business model that makes the Group of Companies different from others. The first difference is "Digital", the second difference is "Global" and the third difference is "Rural". The Group's operations are based on Points Of Sales (POS) witch only require an investment of 400 USD each and only 2-3 staff members without the need for branches, which could require an investment up to 40,000 USD each not including the required staff of 20-30 employees.

- Normally, Consumer finance companies and Micro finance companies are highly labor intensive with many physical documents, but the 'Digital' finance platform allows the Group of Companies to have less staff and require less physical documents.
- Normally, Consumer finance companies and Micro finance companies are homeland oriented companies. But since the "Digital Finance Platform "is a proper screening system for any country; a system that is easy to adjust locally to specific cultures and requires significantly lower investments, the company's expansion is of lower risk and it is easy to expand 'Globally' compared to traditional Finance companies.
- Normally, Consumer finance companies and Micro finance companies are City oriented companies. Our POS are easily economical in rural towns that are close to the customers in the villages and the staff can go to see the customers to get 'valuable information that would not appear on a traditional credit score. This Uniqueness makes the Group of Companies able to get into the 'Rural' area market, where the competition is less developed.

All over the world economic expansion is going on, especially in emerging countries. In emerging countries, the most significant growth going forward is in the Grass Roots Economy which spreads in rural areas, specifically including people who do not have traditional documents and bank accounts. The Digital Finance Platform is the one and only platform, which allows us to provide service in these Grass Roots Economy everywhere. Globally!

In my message in last year's Annual Report, I had committed to all shareholders3 results: "First, we will start our business to Indonesia;

second, we will keep strong growth in Cambodia and Laos;

third, we keep our Thailand operation and increase profitability with proper control of the portfolio quality".

All these came true. The Indonesian business was launched and is rapidly expanding, Cambodia and Laos realized 2.5 times profit and the Thailand NPL ratio went down significantly, decreasing Group credit cost by more than 30%.

Additionally, we have recently expanded our operations to Myanmar and Sri Lanka. Now, we have a presence in 6 countries with full operations in Multifinancing, including Microfinancing, and Hire Purchase financing fields. The result of 2016 was more than expected.

Finally, I'd like to take this opportunity to thank all our stake-holders, our business partners, our clients, our management and staffs – for their support all along, which has been crucial for our success so far. I trust all of you will continue to provide your full support and cooperation so that we can achieve much bigger things together in the years ahead.

### Mitsuji Konoshita Chairman of the Board

**Remark**: The above Message from Chairman was written before the restatement of the Company's financial statement for the year ending 31 December, 2017 and 2016 (restated)

# **Report of the Audit Committee**

The Audit Committee of Group Lease Public Company Limited comprises of 4 Independent Directors, namely, General Suebsan Dardarananda as Chairman of Audit Committee, Mr. Sonit Pichyangkul, Mr. Pholdej Therdphithakvanij and Mr. Krit Phanratanamala as Audit Committee members. In 2016, the present Audit Committee has conducted 13 meetings with management and internal auditor in which the quorum was constituted for every meeting. Self-assessment of Audit Committee as a group will be conducted every year end and the result for this year was excellent. The significant opinions for the year 2016 were as follows:

- **Financial Statement** The Audit Committee had considered and reviewed significant information in the Company's separate quarterly and yearly 2016 and consolidated financial statement of the Company and its subsidiaries with the management and the external auditor and it appeared that the quarterly and yearly financial statements have been done correctly in accordance to the generally accepted accounting principles, hence, the statements are complete and reliable. In addition, the Audit Committee also reviewed on the significant notes from the external auditor (E Y Office Co.,Ltd.) which appeared on the Company's financial statement as of 31 December, 2016 under 2 material issues as follows:
  - 1) The loan and interest receivables amounted to 3,477\* million Baht as of 31 December, 2016 (represented 40% of the consolidated net assets as of 31 December, 2016) in which the external auditor had drawn attention to Note 11 of the consolidated financial statements relating to the loans and interest receivables. The Company provided loans to the Company's subsidiary in Singapore who in turn loaned out ot two groups of borrowers in Cyprus and in Singapore. These borrowers are also shareholders of the Company an have pledged their shares in the Company against those loans with the Company's subsidiary in Singapore. The loans was subject to pledging of securities of properties in Cyprus and Brazil, Cypriot government bonds, stocks of other overseas companies and shares of the Company as owned by the borrowers.
  - 2) Investment in associate company in Sri Lanka approximately 2,545 million Baht as of 31 December, 2016. The subsidiary of the Company acquired 29.99% of the ordinary shares at a purchase price of 2,462 million Baht (this acquisition price excluded associated acquisition-related costs of 26 million Baht). The acquisition was approved at the Extraordinary General Meeting of the shareholders of the Company No.2/2016 on 6 December 2016 and some of the shares (22.27% of the ordinary shares of that company) were purchased from the selling company with one of its directors being also one of the Company's directors. The subsidiary company's outside professional valuer valued such investment at approximately Baht 1,900 - 2,500 million, while the appointed independent financial advisor valued such investment at approximately Baht 1,600 - 1,700 million. On the acquisition date, based on the then market price at the Stock Exchange of Sri Lanka, the value was at approximately Baht 1,391 million. The Company's management assessed that the purchase price represented approximately 8 times of the earnings of the acquired associated company. As at 31 December 2016, such investment was presented as an investment in associate in the consolidated financial statements, at the equity method of Baht 2,545 million (Based on the market price at the Stock Exchange of Sri Lanka on 30 December 2016, the value was at approximately Baht 1,285 million).

The Audit Committee was clarified by the management that regarding the notes mentioned above, the management had carefully considered that it will contribute to the utmost interest to the shareholders and the Company's financial statement had received an unqualified opinion from the external auditor.

- Internal Control System The Company has set up an Internal Audit unit to undertake the functions of risk evaluation and internal auditing covering the whole operation processes and reported directly to the Audit Committee. The Audit Committee had considered the sufficiency of the internal control system of the Company based on the "Assessment form on the sufficiency of the Internal Control" from the Securities & Exchange Commission (SEC) which concept was based on the COSO1 (The Committee of Sponsoring Organizations of the Tread way Commission). It was found that the Company's internal control system was sufficient, transparent and can be inspected. This was efficiently done with the cooperation of all relevant departments.
- **Compliance to the Laws** The Company strictly complied not only with the SEC's and SET's laws and regulations, but also with the laws and regulations from other regulatory in relevant to the Company's business. However, Audit Committee recommended that the management should communicate more on the Company's business to the investors to develop their understanding.
- **The External Auditor** E Y Office Company Limited was appointed as the Company's external auditor for the year 2016 which was their tenth consecutive year. The auditor has been changed to Mr. Sophon Permsiriwallop CPA3182. The auditing was done under the generally accepted accounting standard while the remunerations were reasonable.
- **Transactions that may cause conflicts of interest** The Audit Committee considered that the Company's related party transactions were reasonable, justified and was done in good faith for the Company and complied with the rules and regulations of the Stock Exchange of Thailand. For example, the investment in the association in Sri Lanka in which there are one director in common, such related transaction was considered accurately and had been approved by the shareholders' meeting.

#### • The Meeting Attendance of each Audit Committee

From the overall auditing of the Company's management operating systems, the Audit Committee has the opinion that the Company has efficient and transparent systems which can be inspected in every process. The record keeping system is accurate and compatible in each department, hence, the data can be used as reference among different departments. Moreover, the Audit Committee also encourages the application of good corporate governance of the SET for the Company. Eventually, comments, advices and improvement guidelines that were given were beneficial to the Company as a whole.

The Audit Committee had considered and reviewed the material matters of the financial report for the year ending 31 December, 2017 and 2016 (restated) which had been rectified and reissued as abovementioned with the Company's management as well as the external auditor according to the SEC's letter regarding the loan receivables amount 54 million USD as questioned by the SEC and the revised financial statement was disclosed properly in compliance with the financial reporting standard.

As for the remaining loan receivables outstanding, the Company's management has shown, both in verbal and in writing, the intention to follow up the repayment to their best effort and should it be necessary to enforce the loan collaterals, it would be done legally whereby the Audit Committee shall also monitor closely.

Audit Committee Group Lease Public Company Limited

# **Policy and Business Overview**

Group Lease Public Company Limited or GL was established on May 6, 1986, to serve the automobile hire purchase business in Bangkok and provincial areas. In 1990, a new group of shareholders acquired the business and focused on the hire purchase business of motorcycles while slowing down the hire purchase of automobiles. Later, the Company expanded into hire purchase of other products such as trucks, machineries, and printing presses as well as expanded into financial leasing, factoring contracts, asset financing and personal loans. Since the year 2004, the core business of the Company has been concentrated on the hire purchase of motorcycles.

In 2007,a new shareholder, APF Group, completed a takeover bid and became the major shareholder, which it still maintains today. During the first four years after APF's takeover, the Company focused on improving the business in Thailand as that was the Company's only market at the time. In 2011, the Company decided that expanding outside of Thailand and focusing on the ASEAN market was the best avenue for increasing shareholder value and profitability for the firm, so the Company reorganized management and began a rapid expansion into the ASEAN market using their recently created new business model, which they first deployed in Cambodia. In 2015, the Company followed up its successfully entry in Cambodia by entering fellow ASEAN country Laos. The business model was continually improved upon and transformed GL to be a 'Digital Finance Platform Provider.' This creates a new market for us, especially for the consumer durables suppliers and consumers, through GL's own distinctive Platform which is a unique combination of a POS network and E-Finance system network.

In 2016, due to multiple successful new market entrances, the Company decided it should not restrict itself by focusing only on the ASEAN market, but should be open to opportunities globally. Thus, while we continue to expand in our local ASEAN market, including Myanmar and Indonesia in the past year, we have also expanded into non-ASEAN Sri Lanka. Moving forward, we look to bring our 'Digital Finance Platform' to many new markets across the globe and become a truly global company.

## Vision, Objectives or Strategies in Business Operation

Currently, the Company's vision is to be a "Digital Finance Platform Provider for Billions" in ASEAN and beyond.

In 2012, the Company expanded into Cambodia with the first Finance Leasing License from the National Bank of Cambodia, received exclusive rights of HONDA motorcycle leasing in Cambodia, and signed a MOU to form a business partnership with Siam Kubota Corporation Co.,Ltd., the leading manufacturer of agricultural equipment in Cambodia. The business model in Cambodia is the 'Digital Finance Platform Provider', a combination of a Technology Oriented model coupled with an internally developed software 'E-Finance' and Site-Job Oriented model using our widespread and high density Point of Sales (POS) network. From GL's point of view, the increasing new middle class population in rural areas is the key to success and our target for further business expansion. The Technology Oriented software network and POS network has a low operating cost, is capital light, and quickly expandable to meet demand.

In Laos, the Company began operating in May 2015 using the same successful, proven business model in Cambodia. Due to this strategy, operations in Laos began contributing to consolidated net profits within four months and GL achieved top market share during this time as well. In 2016, following the same strategy, we began operating in Indonesia, which the most populated country in ASEAN, and reached profitability in the first quarter of operations. We also entered Sri Lanka and Myanmar through acquisitions.

### **Changes and Important Development**

In 2012, the Company achieved a new record of profitability due to the rapid expansion of the business. The larger portfolio resulted in significant growth of hire purchase interest income and we were able to maintain a low amount of provision for doubtful debts as collection of accounts receivable improved. Overall, the Company's ability to generate profit improved greatly during this year. In addition, the Company invested in a subsidiary, Group Lease Holdings Pte.Ltd. or GLH, which is a holding company located in Singapore, to use as an investment expansion base in other countries.

In 2013, GL Finance Plc. or GLF began to implement its newly created 'Digital Finance Platform' in the motorcycle hire purchase business in Cambodia. GLF also acquired exclusive financing rights from Honda in Cambodia and currently operates Point of Sales in Honda Dealer shops and Kubota agricultural machinery dealer shops all over Cambodia.

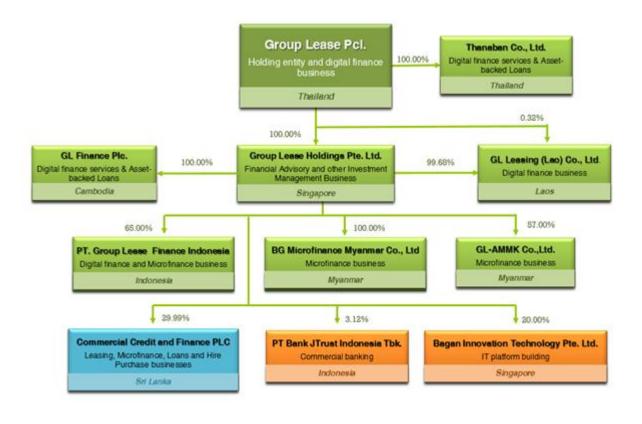

In 2014, the Company acquired 100% of Thanaban Co., Ltd. a Thai competitor in our industry. This acquisition allowed the Company to accelerate our business expansion immediately by about 30%. In 2015 Thanaban had developed new product called 'Motor for Cash' to enhance the potential for competition and also improved our credit approval process for new contract so that it can reduce cost and operating time. We also expanded financial service for second-hand motorcycle called 'Smartbike'. Moreover, new service called 'Car for Cash' had also been developed and started in December, 2015. In 2016, Thanaban had expanded continuously new branches as well as the second-hand motorcycle partnership and towards the end of the year, Thanaban had altogether 53 branches and total 212 second-hand motorcycle partnerships.

In 2015, through continuous growth and expansion of business in Cambodia and Laos under our 'Digital Finance Platform', the Company expanded its product line to include agricultural machines, energy equipment and other products. The new business model brought new income from product suppliers and dealers in the form of consulting and interest income generated by allowing them to distribute their products through our Digital Finance platform. In May, we began operations in Laos with the same business model in Cambodia. The result was Laos began operations to generate profits by the fourth month. In total, we concluded 2015 with the highest amount of revenue, highest amount of net profit, and our largest portfolio ever.

In 2016, the Company broke our 2015 records and again continued to reach new highs. On a consolidated basis, GL improved net profit by 42.23% compared to 2015 and continued to enjoy exponential growth in Laos, where profit increased by more than 750%. We now have more than 150 POS in Laos and more than 250 POS in Cambodia. We also expanded into three new markets: Indonesia, Sri Lanka, and Myanmar. In Indonesia, we expanded organically and achieved profitability during the very first quarter there. In Sri Lanka and Myanmar, we entered those markets via acquisition with Commercial Credit and Finance PLC and BG Microfinance Myanmar Co respectively. Additionally, we acquired part of a Singaporean company, Began Innovation Technology Pte, to position us with additional knowledge and skills to further expand into the Myanmar market. We will continue to focus on growing in our current markets and expand operations globally to further diversify and reduce risk.

# The Shareholding Structure of the Group Companies

The group companies' structure and their respective business and shareholdings are as follows:

| Subsidiary       |
|------------------|
| Associate        |
| Other investment |

# **Nature of Business**

The core business of the group Company is to provide financing and a Digital Finance Platform between consumers and suppliers/dealers for a variety of products such as motorcycles, agricultural machinery, energy sector equipment, and other consumer durables. Consumers benefit as we make it very easy and convenient for them as we facilitate the entire process from application to monthly e-payment installments. Suppliers/dealers benefit as our platform allows them to be more effective and facilitates selling of their full package of products by incorporating marketing, scoring customers (a skill they often lack), and money collection through POS networks and our integrated e-Finance system. The result is that we add value to consumers and suppliers/dealers and we generate revenue from both in the form of Hire Purchase interest, service and consulting fees, and loan interest.

We developed our business in Thailand, but starting in 2011 we began to expand it throughout ASEAN as opportunities arose. After successfully entering six out countries, bringing our total to seven, we now are looking for opportunities globally to expand and strengthen our business.

The total sales of motorcycles has a direct impact on the motorcycle hire purchase business. Overall in our markets, the number of motorcycle sales is rising. It is difficult to accurately measure the number of units financed by our competitors, however, our revenue and profitability increases are well above the growth of the market. We continue to expand internationally, which very few of our competitors have done. This allows us to participate in the growth of ASEAN and other markets as a whole, rather than being dependent on one local economy. As individual countries do not meet growth expectations, which happens, we can use the strength of our other markets to take advantage of those local slowdowns while our competitors their struggle.

In our three longest active markets, Thailand, Cambodia, and Laos, GDP growth in 2016 was 3.2%, 7.0%, and 6.8% respectively per the Asian Development Bank. They forecast for those countries that all three will experience higher GDP growth in 2017 which should translate into higher motorcycle sales and a larger overall market for us. Myanmar, Sri Lanka, and Indonesia were three new markets for us in 2016. For 2017, Myanmar is expected again to have GDP growth above 8%, Sri Lanka is expected have GDP growth increase to 5.5%, while Indonesia is forecasted to have a slight improvement in GDP growth to 5.1%. Overall, our markets are expected to increase in GDP. We will continue to focus on using our Digital Finance Platform to meet the needs of individual customers and dealers which will allow us to outperform our competitors and achieve above average growth and profit returns.

# **Risk Factors**

### Sources of funding risk

To operate our hire-purchase business, a continuous and stable source of funds is required. At present, the Company's major source of fund comes from two sources: loans from financial institutions and cash flow generated by operations.

As of December 31, 2016, the overdrawn and financial institution loan outstanding balance was Baht 1,354.39 million, mostly long-term loans. The long-term credit facilities of the Company which have not yet drawn down amounted to Baht 2,072.9 million.

Historically, the Company has maintained a very good repayment record and followed the conditions of the facility contracts such as to maintain certain debt to equity ratio thresholds and certain maintain hire – purchase receivable to loan levels.

### **Credit risk**

The Company is exposed to credit risk primarily with respect to hire purchase and installment sales receivables, asset-backed loan receivables, and loans receivables. The Company manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses.

In addition, the Company and its subsidiaries do not have high concentration of credit risk since it has a large customer base. The maximum exposure to credit risk is limited to the carrying amounts of hire purchase and installment sales receivables, asset-backed loan receivables and loans receivables as stated in the statement of financial position.

### Interest rate risk

The Company and its subsidiaries' exposure to interest rate risk relates primarily to its deposits with financial institutions, hire purchase and installment sales receivables, assetbacked loan receivables, loans receivables, pledged fixed deposit at financial institution, bank overdraft and short-term loans from financial institutions, short term loan, long term loan, debentures and convertible debentures.

Most of the Company's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate.

### Foreign currency risk

The Company's exposure to foreign currency risk arises mainly from trading transactions and borrowings that are denominated in foreign currencies. During the current year, the Company entered into an agreement to hedge foreign exchange risk for

convertible debentures and related accrued interest expense with related party. The Company operates in seven countries now andthus well diversified in currencies and not dependent on any single currency. This diversification reduces our risk and enables us to match debt current with cash flow from operations currency.

# Incompatibility between the term of the sources of fund and hire purchase contract term risk

Normally the hire purchase installment period varies from 12 - 36 months (average is 30 months) so the Company has set a policy to determine the repayment period for long term facility agreements from financial institution to be compatible with the installment period for the liquidity of business operation. Cash flow, which covers future hire purchase receivable growth, has been assessed to analyze and evaluate liquidity in order to plan for the financial support to be compatible with the hire purchase contract conditions for smooth business operation.

### **Operation which may lead to non-performing loans risk**

At present, the hire purchase of motorcycles is not limited by any rules or special laws from the Government. Therefore, companies in the hire purchase of motorcycles business can expand their business, limited only by their own capacity. However, risk of significantnon-performing loans from a careless credit approval process if there is a lack of good internal control systems.

The Company will strictly consider every approval, maintain strict credit quality by checking the customers' data from the Company's database system of more than 500,000 persons and by being a member of The National Credit Bureau Company Limited and also a member of Motorcycle Hire-Purchase Association of Thailand. The Company can screen the customers' credit effectively from these 3 data sources. As of December 31, 2016, the group Company had non-performing loans of Baht 298.52 million or 4.36% of total receivables. Compared to non-performing loans as of December 31, 2015, which was 5.45% of total receivables, the rate of NPL decreased by 1.09% while the Company set aside an allowance for doubtful debt on December 31, 2016 and 2015 of Baht 270.90 million and Baht 360.83 million, respectively or the Ratio of Allowance for Doubtful Debt to Total Receivables and the rate of NPL decreased due to better quality of the portfolio from more strict on credit approval and improvement on the debt follow up process.

### Loss on sales of repossessed motorcycles risk

The Company will repossess motorcycles if the customer did not pay the installment specified in the hire purchase agreement. The motorcycles will be sold at auction to used motorcycle dealers in the Bangkok Metropolitan Area and provincials. The net receivable of each motorcycle is normally higher than the price of repossessed motorcycle so if the Company cannot claim that loss from the debtor or guarantor, the sale of repossessed motorcycles will be recorded a loss.

The table presents loss on sales of repossessed motorcycles;

However, to reduce such risk, in the first place, the Company has set up strict guidelines and systems in approving the credit by checking the information from the Company's database, National Credit Bureau (NCB) and Motorcycle Hire-Purchase Association in determining the quality of the borrowers before granting the loan. The Company also develops well defined collection service to quickly and efficiently repossess motorcycles to prevent any build up of repossessed assets.

# Influence of the major shareholder to business management risk

A.P.F Holdings Co., Ltd., the Company's major shareholder and Engine Holdings Asia Pte., Ltd. which is in the same group of company ("APF group shareholder") holds a total of 561,476,744 shares or 36.81% of registered and fully paid-up capital of 1,525,509,970 shares of the Company as of 30 December, 2016 and it impossible for the APF Group to control any resolutions which legally require more than half of voting from the shareholders' meeting and that the other minor shareholders are not able to do the check and balance effectively.

# Competition and new competitors in the hire purchase finance of motorcycles risk

To operate a motorcycle hire purchase business, a large investment in materials or tools is not required but a significant source of funds for financing is needed. However, the key of success is not only having the lowest cost of funds but having expertise in credit quality evaluation and collection follow-up. Many competitors have failed in this business because they lack in these capacities.

Motorcycle dealers are important individuals who introduce clients to use our hire purchase services. Therefore, there is a risk if dealers do not recommend our services to the customers. To encourage dealers to recommend us, we provide them with a fast process on credit analysis and approval usingour efficient information technology system and experienced staff who have expertise in the business. Also with our own information technology system, which specially developed to suit the business and personal expertise, the Company can also provide the customers and dealers with fast service in checking the outstanding balance for the closing of accounts.

#### Directorship of the Directors in Other Listed Companies

The Company does not limit the number of directorship of the Company's Directors in other listed companies as most of them had been a director of such companies before joining the Company. Moreover, if doing so, we may lose the chance of having good directors. However, at present, there has not been any director who takes up directorship in other listed company more than 5 companies. Nevertheless, each director was evaluated on their contribution of time to the Company in which all directors had always given high contribution to the Company.

As for the executives, they cannot be director of other companies except the Company's subsidiary or company in the same group. The number of directorship of each director in other listed companies except subsidiary companies for FY2016 are as follow :

| Directors' Name             | Title   | Number of<br>directorship in<br>other listed<br>companies |

#### <u>C</u> <u>Chairman and CEO</u> (the highest management)

Since 2012, the Company had reorganized its management structure so that the Chairman had taken another position as CEO. Despite this, the roles and duties of the Board of Directors and the management were clearly separated and besides, we also have Audit Committee who is the Independent Director and can help doing the check-and-balance of management.

#### **Duties and Responsibilities of Board of Directors**

Directors take responsibility in managing the company's operation in compliance to the laws, Company's objectives, its regulations and resolutions from shareholders' meeting with integrity and fiduciary duty, which can be concluded as follows :

- 1. To determine the Company's objectives, directions, policies, plans, and budget, and to control and supervise the management to reach the set objectives. However, there are some matters which required by law to get the approval from the shareholders' meeting, such as the increasing or decreasing of capital, disposing of or transferring of the Company's whole or partial major business to other persons, or acquiring or accepting of transfer of other business, and the amendment of the Company's Memorandum & Articles of Association.
- 2. To arrange the Annual General Shareholders' meeting within four months after closing the accounting period and determine the agendas and give opinions to

be proposed to the Meeting for approval such as the dividend payment, Board of Directors' and Audit Committee's remunerations and the appointment of directors, etc.

- 3. To consider and approve important investment of the Company as well as investment in subsidiary companies.
- 4. To consider and approve the Company's CG Policy and other policies including other rules and regulations that have been reviewed by Audit Committee or the management and monitor the implementation.
- 5. To arrange the Board of Directors meeting at least once every quarter.
- 6. To present financial statements, both balance sheets and income statements which have already been audited by external auditor to shareholders for approval.
- 7. To appoint executives as proxy or empower others to carry out Company's activities under the Board of Directors' control or to authorize such person to have the appropriate power at a specific period in which such power may be cancelled, withdrawn, changed or amended. In the event of the proxy granting to other persons to carry out activities relating to the normal business activities of the Company, such power granting should be in compliance to the resolution from the Board of Directors' meeting which consists of Independent Director or Audit Committee present in the meeting. In the event that the power granting was disapproved by the Independent Director or Audit Committee, such disapproved opinion should be clearly recorded in the Board of Directors' minutes of the meeting.
- 8. To consider and approve important related party transactions and the acquisition or disposal or transfer of significant assets so that the transactions are done and disclosed correctly and transparently in compliance with the Securities and Exchange Act and the Stock Exchange of Thailand's rules or other related laws.
- 9. To establish proper management structure including the appointment of high level management such as the Chief Officer, Executive Board/Director, Managing Director and General Manager level.
- 10. To approve the appointment of sub-committees such as Audit Committee and determine its roles and responsibilities including the changing in structure, term of office and renewal or other changes which may significantly affect such committee's operation.
- 11. To monitor the Company's operating result to continuously achieving the set target according to the business plan and budget.
- 12. To approve procurement of significant assets or maintenance expenses at the amount exceeding Bht 5,000,000.-
- 13. Directors must not involve in the business of the same nature of the Company's business or in competition with the Company's business or being partner in any

partnership entity or being an unlimited partner in any limited partnership or being a director in a private company or other companies that operate the business of the same nature with the Company and competing with the Company's business either for personal interest or for others' interest except prior disclosing at the shareholders' meeting before the appointment.

14. Directors have to inform the Company promptly if he is having any conflict of interest directly or indirectly in any of the Company's contract, or the increasing and decreasing of the Company's share or debenture holdings.

However, the authorized duties of the Board of Directors mentioned above does not include the authorization that may allow the Board or its proxy to be able to approve the transactions that have any conflict of interest or other conflicts either for own interest or others with the Company or its subsidiary companies according to the SET's rules in which such transactions should be approved by the Board of Directors' meeting and /or by the shareholders' meeting as stated in the Company's Articles of Association or other related laws.

#### **Duties and responsibilities of Chairman**

- 1. To be responsible on behalf of the leader of the Board of Directors in governing, monitoring the business management of the top executives of each function line to achieve the set objectives or plans.
- 2. To be responsible as Chairman of the Board of Directors' meeting and the shareholders' meeting of the Company.
- 3. To be responsible in casting the final vote to make the board's resolution in the event of a tie vote.

#### Board of directors' self-assessment

The Board of Directors has the policy to conduct self-assessment of the Board of Directors and Audit Committee as a group annually aiming to improve the efficiency of both as a whole. In December of each year, the Secretary will review the questionnaires which had been adjusted from the SET's example and distribute to each of the director to fill in. The topics of assessment were under 6 main areas as follows:

- 1. Structure and Qualification of the Board
- 2. Roles, Duties and Responsibilities of the Board
- 3. Board of Directors Meeting
- 4. Duties performing of the Board

- 5. Relationship with the Management
- 6. Directors and Management Development

After the questionnaires have been returned, the Secretary shall summarize the result and report them to the Board of Directors. As for the year 2016, the overall result of the self-assessment of Board of Directors was excellent in all criteria which details are as follows:

#### Audit Committee's opinion :

The Audit Committee has reviewed and validated above transactions, and gave the opinion that the purpose of these transactions are to support the company's business expansion in the regional country with an interest rate close to the normal rate when the company borrows from the bank. And these transactions are needed and for the company's business. For the hire-purchase service for the machinery to support educational institution with the market interest rate as in the general business. This transaction has benefit as a kind of promotion for the subsidiary in the regional country. And management services involved in doing the general business for the highest benefit of the company's business. (arm's length basis)The Company has issued convertible debentures in foreign exchange rate and it will contribute to the expansion of the company's business with an interest rate close to the normal rate when the company borrow from the bank. And for the highest benefit of the company.

#### **Consolidated financial statements**

The Company's revenue structure of consolidated financial statements were similar to the separate financial statements. In the year 2016, hire purchase interest income was Baht1,949.69 million (or 72.53 % of total revenues) which increased 2.70% from the year 2015 which recorded at Baht 1,898.44 million, due mainly to an increase of interest income from the subsidiaries in Cambodia, Laos and Indonesia by Baht 235.10 million, Baht 71.91 million and Baht 3.18 million respectively, in tandem with rising loan volume in foreign countries. However, the increase was partially offset by decreasing in interest income from GL and from local subsidiary by Baht 138.86 million and Baht 120.11 million respectively. This is in line with the company's strategy and the business model "Digital Finance". The objective is to reach 'Stability and Quality in Thailand for new Motorcycles, Growth and Creation in Emerging countries and Emerging consumers.

In the year 2015, hire purchase interest income was Baht 1,898.44 million (or 76.28% of total revenues) which increased 13.24% from the year 2014 which recorded at Baht 1,676.42 million related to the growth of the hire-purchase portfolio especially in Cambodia as well as GL Leasing (Lao) Co. Ltd. acquired in 2015.

The portion of hire purchase interest incomes continually decreased from 90.02% in the year 2014 to 76.28% and to 72.53 % in the year2015 and 2016, respectively, as a result of the consolidation of incomes from other businesses from subsidiaries, for example; asset - backed loan interest income from Thanaban and interest on loan receivables from Group

Lease Holdings Pte., Ltd. Moreover, other incomes has been increased significantly since year 2014, mainly from an improvement of collection efficiency and strategy to follow up the debt which was write off. The company's strategy is to create opportunities to grow the new business and to diversify the risk by increasing financial products or entering new markets.

# **Capital Structure**

#### **Consolidatedfinancial statements**

For the capital structure at the end of the years 2016, 2015 and 2014, the Company's debt to equity ratio was 1.06, 1.89 and 1.43 times, respectively. These ratioshave a trend to decrease in accordance with the separate financial statements.

#### Separate financial statements

For the capital structure at the end of the years 2016, 2015 and 2014, the Company's debt to equity ratio were 1.14, 0.41, and 1.86 times, respectively. The ratio was affected by the long-term credit line and issued debentures for using the business expansion, detailed as follow:

1. Increasing of an outsource funding such as debentures to interest rate of 2.84% per annum, convertible debentures to interest rate of 5.00% per annum anddecreasedbank overdrafts, promissory notes and long-term loan from the banks which was paid back by installments at fixed interest rate of 6.00% per annum. The Company's total liabilities increased from Baht 2,900.09 million in 2015 to Baht 8,401.23 million in 2016 which was an increase of Baht 5,501.14 million or 186.69 %. From the historical record, the company can repay the principal and interest by the due date and also in accordance with the loan covenant.

2. An increased of capital from an internal source in 2016 were an increasing of shareholders' equity of Baht 7,109.06 million in 2015 to Baht 7,375.43 million which was an increase of Baht 266.37 million or 3.75 %. Which came from the increasing of issued and paid up capital Baht 49.11 million and the increasing in share premium of Baht 936.93 million from warrant exercising and an increasing of retained earnings of Baht 250.98 million. Net comprehensive incom of Baht 482.22 million deducted by the amount of dividend paid and issuance of stock dividend total Baht 231.24 million.

However in the future, the company may consider additional source of fundingby issuing debenture, loan from oversea financial institutions and an increasing of credit line from financial institution. All these would be up to the market situation and necessity of fund needed to provide the flexibility and appropriate funding to support the business operationinThailand and ASEAN.

# Factors which may have influence to the Future Business operation

#### **1.** Political and Economic situation

The expansion of the hire purchase motorcycles business was directly affected by motorcycle manufacturing industry as the two are dependent of one another. In 2016, the political situation was fairly stable and was in a process of creating a Road Map for the new election that will be held in 2017. Of which we believe would not have an effect on the government's stability in the mean while. This is then an opportunity for the government to emphasizes the policy in order to boost up Thai economy. Especially the investment on mega projects to boost domestic consumption. This situation has a positive effect on the growth of the hire purchase motorcycles business.

#### 2. Demand on usage of motorcycle

Demand on motorcycle could get in to its maturity stage in the future when considering the trend of new number registered in Bangkok and Vicinity area and some upcountry area. Many government policies may indirectly have an impact on the motorcycle industry as they support usage of substituted vehicle such as low cost automobile in Eco car project. However, with the lifestyle and traffic of the Thais we believe that motorcycle will continue to be an alternative means of transportation.

#### 3. Business expansion in the regional country

The company's' target is to expand motorcycle and agricultural machineryhire purchase business to the regional country in Asean, to enlarge the market share,

increasing profit and risk diversify. As motorcycle and agricultural machinery hire purchase business in many Asean countries are in a growing stage and has a potential to grow even bigger.

In 2014, the Company started to have the first operating subsidiary company outside Thailand. As of 31 December 2016, the subsidiary in Cambodia had added the Point of Sales (POS) of over 178location all over Cambodia including 154 at Honda Leasing and 24 at Kubota agricultural machinery. As an exclusive right to Honda motorcycle dealer this has benefited us in our rapid business expansion and began to generate profits for the company. It also has the potential to grow in a short period of time.

In 2015 the Company had expanded the market into Lao PDR by introducing GL Leasing (Lao) Co., Ltd. or GLL, through the shareholding of Group Lease Holding Pte, Ltd., as a hire-purchase for Honda motorcycle and Kubota agricultural machinerybusinesses. GLL is currently operating59 POSs in Honda dealers' shop which covers all of Lao. Whereas for Kubota, GLL is operating at all 13 Kubota dealers location. As a result, GLL was able to reach its break even within the period of only 10 months of their operation.

During the year 2016, the Company had expanded the market into Indonesia by introducing PT. Group Lease Finance Indonesia ("GLFI"), a joint investment among GLH, JTrust Asia Pte. Ltd. and an Indonesian partner. GLH can consolidate 80% of the financial statements of GLFI. GLFI is currently operating 24 POSs in Kubota dealers which covers all area of Indonesia. Not only providing HP for Kubota agricultural machinery, but GLFI is also about to provide the microfinance, group loan, will start in February 2017.

During the year 2016, the Company purchased 29.99% of ordinary shares of Commercial Credit and Finance PLC ("CCF") and recorded as investment in associated company. CCF is a listed company and incorporated in Sri Lanka and its main activities are leasing, microfinance, lending and hire purchase business. The Company started recognize 29.99% of the profit from CCF in in the fourth quarter of 2016.

In 2017, the Company will fully expand into the financial market in Myanmar. The Company acquired 100% of BG Microfinance Myanmar Co., Ltd ("BGMM") in early January 2017. BGMM is incorporated in the Republic of the Union of Myanmar and engaged in the activity of microfinance business.

Moreover, the Company will continue use the fast-growing model of digital-finance business extending from Asia to Africa and Eastern Europe in 2017. The target is to expand its corporate footprint from seven countries in Asia at present to 20 countries worldwide the coming year. Overall, the company has the potential to grow in Asia, Africa and Eastern Europe in many countries which in the future can expect to generate higher profits with the risk diversification. During the year 2016, the Company purchased 20.00% of ordinary shares of Bagan Innovation Technology Pte. Ltd. ("BiT") and recorded as other long-term investments. BiT is incorporated in Singapore and the Company is a software development company specialised in digital content and mobile application solutions.

During the year 2016, the Company purchased 3.12% of ordinary shares of PT Bank JTrust Indonesia Tbk. ("JTrust Bank") and recorded as other long-term investments. JTrust Bank is incorporated in Indonesia and its main activity is commercial banking.

Board of Directors Group Lease Public Company Limited 31 July, 2018 Group Lease Public Company Limited and its subsidiaries Report and consolidated financial statements (Restated) 31 December 2017 and 2016

#### **Independent Auditor's Report**

To the Shareholders of Group Lease Public Company Limited

#### 1. Basis of Qualified Opinion

#### (a) Fraud as alleged by the SEC

On 16 October 2017, the former Chairman and Chief Executive Officer ("ex-CEO") was accused by SEC for, among others, fraud and falsehood in accounting with concealed act and was referred to the DSI for consideration of prosecution. The pattern appeared to be round-tripping of fund-out and fund-in in pumping the Group's profits fictitiously with high interest income.

The SEC's findings as stated in the alleged against ex-CEO was a follow-up to my previous observations on these Cyprus-Singapore "borrowers" as extraordinary. SEC extended the investigation by tracing the flow of funds with co-operation and assistance from the Cyprus Securities and Exchange Commission. It finally concluded that the loans were fraudulent and regarded as financial shenanigans and filed a criminal complaint against ex-CEO with the DSI mainly for breaking the laws under the Securities and Exchange Act B.E. 2535 and the Securities and Exchange Act (No. 5) B.E. 2559. The justice process is ongoing and now rested with DSI for consideration of prosecution against ex-CEO in the court of justice.

#### (b) Historical Records of the alleged 'loans' and provision for losses

On records, the gross loans purported to be granted to these two major groups of 'borrowers' amounted in total to USD 98 million of which the related sum of USD 54 million was alleged by SEC as fraud committed by ex-CEO. After filing of the Company's 2016 audited financial statements on 28 February 2017 with our highlighted emphasis on the extra nature of the loans, thereafter loans were partially refunded in total of USD 42 million, leaving USD 56 million still outstanding on 30 September 2017 and 31 December 2017.

In an attempt to respond to the first SEC's order to revise and correct past financial statements of the delinquency, the Company decided to set aside a provision for losses from that financial shenanigans as alleged by the SEC the whole sum of USD 56 million against the quarterly profits then ended on 30 September 2017. However, subsequently on 16 January 2018, the SEC ordered the Company again to correct the past financial statements relevantly. In an attempt to respond the SEC's order again, it has retroactively restated its past financial statements for the year 2017 (and 2016 comparative financial statements) for the loan portion alleged by the SEC and presented those past financial information here for comparative purpose as explained in Note 50 to the financial statements. Please also refer to our audit report paragraph 1 (e).

In addition, there were receivables substantially incurred in 2017 and due from companies related to this ex-CEO of USD 9 million for which an additional provision for losses was also set aside.

#### (c) Chance of loss recovery

The portrayed 'loans' to Cyprus and Singapore were secured with security of property and financial instruments, the value of which (value of the security of the Company's own shares which was withdrawn from securities was excluded) then estimated by the management as in excess of the outstanding 'loans'. Therefore the losses from the provision could be reduced or proved as surplus to requirement if there are attempts to realise their value and civil claims against the ex-CEO for damages. As from 16 October 2017 till now, I am not aware any recovery yet. The Group's operating results and financial position are therefore dependent on the efforts and eventual realisation of those securities and damages claimed against the ex-CEO for fraud as alleged by the SEC and concealed acts of falsehood in accounting. Even with the provision for losses being set up in full, it is commercially necessary for the Company headed by the new CEO, who is related to the ex-CEO, to demand full restitution from the borrowers and that ex-CEO. In addition, the Company is required to protect and take control of all bank accounts of the Company's subsidiary in Singapore and other countries and all the assets of securities previously provided against the "loans" to ensure realisation on their value at maximum for eventual restitution. The bank accounts of the Company's subsidiary in Singapore and the substantial securities are presently outside Thailand and under the control of the board of directors of the Company's subsidiary in Singapore while that ex-CEO is still one of authorised directors of the subsidiaries in Singapore and an oversea subsidiary.

I have sent requests for confirmation of balances as at 31 December 2017 to collateral custodian. Up to this report date, I have not yet received any reply from the collateral custodian.

#### (d) Qualified opinion

Because of that ex-CEO being under ongoing official investigation by DSI following the SEC's criminal complaint, the whole matter is now under consideration for proceeding to court. Due to the legal process not being finalized and my limitation as a professional auditor in examining further the real status of the borrowings, I am therefore unable to conclude on the status of the debts except to await for the DSI's investigation since it has power and official channels to eventually decide and conclude the case and seeking for court's judgement. Therefore, under this limitation by circumstance, I am unable to conclusively determine the eventuality of the SEC's criminal complaint on those loans and receivables and bona fide of interest income and also unable to conclude on the fairness of the provision for losses which is subject to the efforts of recovery of the Group's assets alleged by the SEC by the new management and also I am unable to conclude whether there should be more adjustment on the past financial statements because the Company has amended its past financial statements based on the figures of loans as made known to the Company from the SEC's allegation. The amendment has been made on the 2017 financial statements (and 2016 comparative financial statements) but not on the 2015 financial statements because the Company considers the effect in 2015 as immaterial.

# (e) <u>Reclassification as "Disputed loans" (as alleged by the SEC) instead of "Loans to</u> <u>Cyprus and Singapore group" and reversal of amount previously shown as interest</u> <u>income</u>

Relying on the SEC's allegations of fraud and falsehood in accounting committed by the ex-CEO and assuming the eventual legal process reached with the same conclusions as alleged, the past financial statements ended on the related years would have to be relatively corrected and revised with the now known alleged fraud, which was portrayed as loans granted by the Group to the 'borrowers' in Cyprus and Singapore and reversal of previous interest income.

- 1) Portion of loans alleged by the SEC of USD 54 million Already restated in the past financial statements
  - The Company has retroactively restated the financial statements for the year 2017 financial statements (and 2016 comparative financial statements) whereby it has not recognised interest income as revenue but cash received from interest has been treated as a part of loan repayment.

Note: Because the effect of adjustment to profit and loss for the year 2015 was only Baht 34 million which is regarded by the Company as immaterial, the Company has not amended the 2015 financial statements but included that amount in the 2016 adjustment and amend the 2016 financial statements.  In addition, the Company has reclassified from the "Loans to Cyprus and Singapore group" to "Disputed loans" (as alleged by the SEC). The Company has set up full provision against those loans in the year 2017. The Company has stopped recognising interest income on these loans since the fourth quarter of 2017.

The revision of these financial statements has been made only on the issue as raised by the SEC i.e. by reclassification of loans as alleged by the SEC and reversal of related interest income. There is no other revision and there is no update of any subsequent events previously disclosed or adjusted in the financial statements.

# 2) Portion of loans granted to the same borrowers which is not alleged by SEC of USD 44 million - No amendment of past financial statements retroactively

The Company has still included this portion as normal loans in the statement of financial position and recognised interest income in the past financial statements as usual and there was no amendment of past financial statements. This is because the Company has no information to confirm that this portion is of the same type as that alleged by the SEC. However, the Company has set up full provision against these loans in 2017. The Company has stopped recognising interest income on these loans since the fourth quarter of 2017.

In the future, if there is information confirming that this portion is of the same type of that alleged by the SEC, the past financial statements would have to be amended accordingly, as follow:

#### 2. Qualified Opinion

I have audited the accompanying consolidated financial statements of Group Lease Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at 31 December 2017 and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of Group Lease Public Company Limited for the same period.

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion on the financial statements.

In my opinion, except for the possible effects on the matters described and detailed in the *Basis for Qualified Opinion* section of my report, which are limitations by circumstances, pending investigation of the Department of Special Investigation ("DSI") and legal process and subject to the outcome on the degree of recovery of the Group's assets alleged by the SEC, resulting me in being unable to determine the appropriateness of the loans, interest income and provision for losses and unable to conclude whether there should be more adjustment on the past financial statements, the financial statements referred to above present fairly, in all other material respects, the financial position of Group Lease Public Company Limited and its subsidiaries (the Group) and of Group Lease Public Company Limited as at 31 December 2017, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

I have changed my opinion on the financial statements as at 31 December 2016 and for the year then ended (as presented here in for comparative purpose) to Qualified Opinion on the same issues as my opinion on the 2017 financial statements.

#### 3. Emphasis of matters

I update and draw attention to the following matters:

 3.1) Loans and interest receivables (included disputed loans) - as restated - Baht 1,569 million (before provision for loss) as of 31 December 2017, represents 22 percent of the consolidated net assets (As of 31 December 2016: Baht 3,522 million - 43 percent)

I draw attention to Note 13 of the consolidated financial statements relating to the loans and interest receivables. The main business of the Company is in the hire purchase financing for motorcycles but, separately and significantly from the main business, loans were granted to two groups of 'borrowers' - portrayed as one group in Cyprus and another in Singapore. Parties in the groups were at that time also shareholders of the Company and pledged the Company's shares against those loans. Besides share pledging, their ownership of properties in Cyprus and Brazil, Cypriot government bonds, stocks of other overseas companies were also used as collaterals against those indebtedness.

Originally in 2016, the periods of the loans granted were in the range of 3 months to 3 years. The principals were all due for repayment upon maturity but were rolled over and extended to the periods of either 2 or 3 years. The loan balances which were subjected to the mentioned rollovers amounted to Baht 2,129 million (USD 59 million), 60 percent of the total loans.

In 2017, before due date, the Cyprus 'borrower' repaid a sum of Baht 845 million (USD 25.3 million) and partially released the collateral of the Company's shares but retained other collaterals as stipulated in agreements. In addition, and on due date, the Singapore 'borrower' repaid a sum of approximately Baht 557 million (USD 16.7 million) and the remaining collateral of the Company's shares was also released and replaced by the value of properties in Japan (The Company advised that pledging of the properties in Japan was registered with Japanese Registry Office already). As at 31 December 2017, no Company's shares remained part of the collaterals against the two purported 'loans'.

(See also Note 13 to the financial statements and our Basis for Qualified Opinion paragraph)

# 3.2) <u>Investment in associated company in Sri Lanka - As of 31 December 2017 - Baht</u> 2,023 million (investment value under equity method Baht 2,605 million less provision for loss of Baht 582 million) (31 December 2016 - Baht 2,545 million)

I draw attention to Note 19 of the consolidated financial statements relating to the investment in an associated company in Sri Lanka. The subsidiary acquired 29.99% of the ordinary shares of a company listed on the Sri Lanka Stock Exchange at a purchase price of Baht 2,462 million. The acquisition was approved at the Extraordinary General Meeting of the shareholders of the Company No.2/2016 on 6 December 2016 and a substantial part of the Sri Lanka shares (22.27%) was sold to the Company by a selling company with one of its directors being also one of the Company's directors. The subsidiary's outside professional valuer valued such investment at Baht 1,900 - 2,500 million, while the appointed independent financial advisor valued at Baht 1,600 - 1,700 million and while the market price at the Sri Lanka Stock Exchange, when acquired in late 2016, was at Baht 1,391 million.

As of 31 December 2017, a provision for loss of Baht 582 million was set aside against this investment in consolidated financial statements after a period of acquisition of one year. The above referred director who was the director in the selling company and also in the Company has since resigned from the Company's Board effective as of 31 January 2018 citing conflict of interest.

As at 31 December 2017, such investment was presented as an investment in an associate in the consolidated financial statements of Baht 2,023 million (investment value under equity method Baht 2,605 million net of provision for loss of Baht 582 million) (31 December 2016: Baht 2,545 million with no provision for loss). Based on the market price at the Sri Lanka Stock Exchange at the end of 2017, the total value was only approximately Baht 874 million (2016: Baht 1,285 million). The difference between the carrying value of investment (even after provision for loss) and the Stock Exchange market price at the end of 2017 is materially significant and still needs future assessment whether further provision for loss is required.

(See more significant matters as disclosed by the Company in Note 19 to the financial statements)

#### 3.3) Investment in PT Bank JTrust Indonesia Tbk (Other investment) - Note 20

On 26 October 2016, the Board of Directors of the Company approved a subsidiary company to acquire shares of PT Bank JTrust Indonesia Tbk. ("PT Bank JTrust") and subsequently on 13 December 2016, the subsidiary company acquired 28.15 trillion shares (3.12% of the total shares) in this company at total cost of USD 11.70 million (Baht 414 million) from JTrust Co. Ltd. - a related company. The remaining portions of approximately 97% being majority shareholding in this company were still held by JTrust Co. Ltd. – a related company (which is under the same group as the plaintiff on various legal cases against the Company as discussed in 3.5). This company is an Indonesian company engaging in commercial banking business.

As at the acquisition date, the purchase price the subsidiary paid to acquire this investment when compared with the book value of this company represented the ratio of Price per Book Value ("P/BV" ratio) of approximately 3.65 times. As at 31 December 2017, the P/BV ratio increased to 3.95 times while the 'average P/BV ratio' of all commercial banks in Indonesian market was about 1.60 times. The Company's management considers that there is no impairment on this investment due to other favorable factors including profitability ratio and business opportunities of this company in the future. The carrying value of this investment was significantly in excess of the value calculated based on the 'average P/BV ratio' and this difference needs attention.

As at 31 December 2017, the carrying value of this investment was Baht 414 million. The value of this investment depends upon the ability to cooperate with its major shareholder in the future and the success of future operations of this company.

#### 3.4) Investment in BG Microfinance Myanmar Co. Ltd. (investment in subsidiary) - Note 18

The Extraordinary General Meeting of the Company's shareholders No. 2/2016, held on 6 December 2016, approved the acquisition of 1,387,680 shares of BG Microfinance Myanmar Co. Ltd. (100% wholly-owned) at the cost of USD 8.01 million (Baht 280 million). The cost was appraised and set by the subsidiary company's management, while the appointed independent financial advisor valued the investment at approximately Baht 173 - 179 million. The company was incorporated in the Republic of the Union of Myanmar with its main activity described as microfinance. It provides retail loans to women grouping 5 in number and individual loans to entrepreneurs operating small and medium scale enterprises (SMEs). At present, the Group is in the process of assessing the fair value of identifiable

assets acquired and liabilities assumed at the acquisition date. The assessment process is ongoing and mainly related to the identification and valuation of intangible assets and certain tangible assets. The assessment shall be completed within measurement period of twelve months from the acquisition date (within the first quarter of 2018) pursuant to the period allowed under Thai Financial Reporting Standard No. 3 (revised 2015).

As at 31 December 2017, the carrying value of this investment is Baht 654 million. The increase in carrying value of investment is as a result of capital increase during the year.

# 3.5) <u>Subsequent Events - Major source of fund from convertible debenture holder and legal cases</u>

Following the SEC's incrimination, in January 2018, one substantial holder of the Company's convertible debentures with an outstanding balance of USD 180 million or approximately Baht 6,000 million gave notice to terminate the financial agreement citing cancellation of voidable transactions and demanded immediate repayment and damages, filed a civil case with the civil court against the Company demanding immediately repayment of convertible debenture (of approximately Baht 6,000 million) and damages (of approximately Baht 2,000 million), filed a petition with the Central Bankruptcy Court for rehabilitation of the Company, filed a criminal complaint with the Department of Special Investigation and also the Police's Economic Crime Suppression Division and also filed a lawsuit in Singapore against the Company's subsidiary. The Company maintained that if it did not breach any debenture condition and the demands and claims were without merits.

Under the generally accepted accounting principles, this highly significant investor, convertible debenture holder could be considered as a related party to the Company because the amount invested over the last two years was over Baht 7,000 million or USD 210 million (partly converted into the Company's share capital) represented more than 30 percent of the total sources of funds supporting the whole operations of the group.

## 4. Material uncertainty related to going concern

I draw attention to the legal cases as discussed in 3.5 as actioned by the convertible debenture holder which may affect going concern of the Group in the future including financial status, classification of liabilities, result of operation and cash flow status. Presently, it is assumed that those cases will not affect the going concern of the Group.

## 5. Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

In addition to the matters described in *the Basis for Qualified Opinion*, key audit matters and how audit procedures respond for each matter are described below.

#### **Revenue recognition**

The Group's policy on recognition of hire purchase and asset - backed loans interest income are discussed in Note 5 to the financial statements. In 2017, the Group's revenue mainly consisted of interest income from hire purchase and asset - backed loans contracts, which amounted to Baht 2,227 million (representing 71 percent of total revenue). These hire purchase and asset - backed loans interest incomes were derived from agreements made with a large number of customers, most of whom are retail customers, and the revenue recognition is primarily reliant on data processing by information technology systems. Therefore, I addressed the amount and timing of the recognition of hire purchase and asset - backed loans as a key audit matter.

I assessed and tested the Group's IT system controls and significant internal controls related to the loan origination, loan receipt and interest incomes recognition processes by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls. I applied a sampling method to select hire purchase and asset - backed loans contracts to assess whether the recording of hire purchase receivables, asset - backed loans receivables and revenue recognition were in accordance with the conditions of the relevant agreements and were in compliance with the Group's policy. In addition, I performed analytical procedures on the recognition of interest incomes throughout the year, the cessation of recognition of interest incomes and applied a sampling method to examine accounting entries related to interest income recognition that were made through journal vouchers.

# Allowance for doubtful accounts for hire purchase receivables and asset-backed loan receivables

As discussed in Note 5 to the financial statements, the estimation of allowances for doubtful accounts for hire purchase receivables and asset-backed loan receivables relies on various assumptions. Therefore, the management is required to exercise considerable judgement in determining the assumptions to be used in estimating the losses expected to be incurred when debtors are unable to repay principal and interest, and the appropriateness of the timing of recognition.

Moreover, the estimation of these allowances was significant because as at 31 December 2017, the Group had significant balances of hire purchase receivables and asset-backed loan receivables (accounting for 48 percent of total assets). Therefore, there is a risk that the allowances for hire purchase receivables and asset-backed loan receivables recognised will be insufficient, resulting in a risk of the Group overstating the value of its hire purchase receivables and asset-backed loan receivables and asset-backed loan receivables and asset-backed loan receivables and asset-backed loan receivables.

I assessed and tested the internal controls relevant to approval, recording and debt collection for hire purchase receivables and asset-backed loan receivables, and the internal controls relating to the calculation of the allowances. I also assessed the appropriateness of the key information, assumptions and methods used by the Group in calculating allowance for doubtful accounts for hire purchase receivables and asset - backed loan receivables by performing the following procedures:

- Gained an understanding of how allowances were calculated, and assessed the appropriateness of the calculation of probability of default and loss given default.
- Checked the credibility of key data used in the calculation to key sources
- Performed analytical procedures on assumptions that the Group applied against historical data and external sources and evaluated whether the assumptions were consistently applied.
- Checked the correctness of the financial information disclosed in the financial statements.

# Purchase price allocation ("PPA") and valuation of investment in associate company in Sri Lanka

#### Purchase price allocation

The subsidiary acquired shares in a listed company in Sri Lanka at a purchase price of Baht 2,462 million (approximately 29.99% of total share capital in that company). As part of the PPA performed, this amount was allocated to the fair value of the identifiable assets acquired and liabilities assumed, resulting in the recognition of goodwill of Baht 1,322 million, which was included in investment in associated company, as disclosed in Note 19 to the financial statements.

I focused on the acquisition transaction since it is material to the financial statements as a whole, and management was required to exercise substantial judgment when appraising the fair value of the assets acquired and liabilities assumed. Therefore, there is a risk with respect to the recognition and measurement of the assets acquired and liabilities assumed, including goodwill.

#### Valuation of investment in an associate

The carrying value under the equity method of the investment in the associated company was higher than its market value, which was determined based on the market price of the associated company's shares on the Sri Lanka stock exchange. The difference between the carrying value of the investment and the stock market price could be viewed as an indication of impairment. As a result, management had taken a conservative view and decided to set aside provision for loss on the investment of Baht 582 million in the third quarter of 2017, based on a management estimation.

As of 31 December 2017, the carrying value of the Group's investment in the associated company was therefore Baht 2,023 million (after provision for loss). The management then estimated the recoverable amount of the investment in the associated company based on discount cash flow model and the recoverable amount as estimated was higher than the carrying value.

I focused on the estimation of the recoverable amount of the investment because the assessment of impairment of investment in the associated company is a significant accounting estimate requiring management to exercise a high degree of judgment in estimating the cash inflows that are expected to be generated in the future, and determining an appropriate cost of equity, long-term terminal growth rate and fluctuations in exchange rates. There are thus risks with respect to the valuation of investment in associate company.

#### Procedures performed

The audit procedures of purchase price allocation included assessing the appropriateness of the fair value of the identifiable assets acquired and liabilities assumed, evaluating the appropriateness of assumptions and methodologies underpinning the valuation, as well as involving valuation specialists in evaluating the appropriateness of financial parameters applied to determine discount rate, valuation methodology and mathematical accuracy, and evaluating the methodologies, assumptions and measurement methods applied to the valuation. The procedures also included the evaluation of the expertise, ability and integrity of the independent valuation specialist, assessment of the rationale for the goodwill recognised by the Group, and reviewing the disclosures related to the acquisition in the notes to financial statements.

My audit procedures of valuation of investment in associate included evaluating the discount cash flow model basis provided by the Group and the reasonableness of the assumptions the Group applied to the calculation based on the used method by checking them against relevant documents and information from external sources, involving valuation specialist to evaluate the appropriateness of the financial parameters applied to determine cost of equity, terminal growth rate, and fluctuations of exchange rates, based on the economic and industry statistics relevant to the business. In addition, I tested the principles and mathematical accuracy of the discounted cash flow model and performed sensitivity analysis around the key assumptions. I gained an understanding of the recoverable amount by the Group and evaluated the reasonableness of the recoverable amount by checking it against relevant documents and information from external sources. I also reviewed the disclosures related to the valuation of investment in the notes to financial statements.

#### Investment in subsidiary company in Myanmar

As described in the Note 18 to the financial statements, during the current year, a subsidiary of the Company invested in BG Microfinance Myanmar Co., Ltd ("BGMM"), which is a company incorporated in the Republic of the Union of Myanmar and engaged in the microfinance business. As at 31 December 2017, the Group provisionally recorded the acquisition using a best estimate of the values of the assets acquired and liabilities assumed, determined by applying the acquisition method. The Group will complete the recording of the acquisition within 2018, and the amount recorded as at 31 December 2017 may change. I have focused on this business acquisition since it is material to the financial statements as a whole. In addition, given the nature of the microfinance business, the management needed to exercise substantial judgment to determine the assumptions used as a basis for provisional recognition of the acquisition. Therefore, there is a risk with respect to the recognition of the assets acquired and liabilities assumed, including the initial difference from the acquisition.

I reviewed the terms and conditions of the agreement and inquired with management as to the nature and objectives of the acquisition in order to assess whether the acquisition meets the definition of a business combination under Thai Financial Reporting Standard 3 (Revised 2015) Business combinations. I checked the value of the acquisition against supporting documents and related payments to assess whether it reflected the fair value of the consideration transferred and that it did not include acquisition-related costs. In addition, I checked the investment valuation as at the date of the acquisition was recorded. I also checked the completeness and accuracy of the disclosures related to this transaction in the notes to financial statements.

#### Goodwill

I have focused on the consideration of the impairment of goodwill, as discussed in Note 23 to the financial statements, because the impairment assessment on goodwill is a significant accounting estimate requiring the management to exercise a high degree of judgment in identifying the cash generating unit, estimating the cash inflows that are expected to be generated from that group of assets in the future, and setting an appropriate discount rate and long-term growth rate. There is thus a risk that the presented values of goodwill will be inappropriate.

I assessed the appropriateness of the identified cash generating units and the financial models selected by management by gaining an understanding of the management's decision-making process and determining whether the decisions were consistent with how assets are utilised. In addition, I tested the significant assumptions applied by management in estimating the cash flows expected to be realised from the assets, by checking those assumptions against information from the sources of the Group, and determining the accuracy of past cash flow projections through comparison with actual operating results. I also considered the appropriateness of the discount rate applied by management, tested the calculation of the realisable values of the assets using the selected financial model, and considered the impact of changes in key assumptions on those realisable values. Moreover, I assessed the adequacy of the disclosures made with respect to the impairment assessment for goodwill and intangible assets.

# Allowance for impairment of investments in subsidiaries and other long-term investments

I have focused my audit on the consideration of the impairment of investments in subsidiaries and other long-term investments, as discussed in Notes 18 and 20 to the financial statements, because the impairment assessment on investment in subsidiaries and other long-term investments is a significant accounting estimate requiring the management to exercise a high degree of judgment in identifying and estimating the recoverable amounts that are expected to be generated from those investments. The recoverable amount of an asset is the higher of the asset's fair value less costs to sell and its value in use. There is thus a risk with respect to the valuation of investments in subsidiaries and other long-term investments.

I assessed the appropriateness of the financial models selected by management by gaining an understanding of management's decision-making process. In addition, I tested the significant assumptions applied by management in estimating the recoverable amounts that are expected to be generated from the subsidiaries and other long-term investments, by comparing those assumptions with information from both internal and external sources and comparing past cash flow projections to actual operating results in order to evaluate the exercise of management judgment in estimating the future cash flow projections. I also evaluated the appropriateness of discount rate applied by management through analysis of the average costs of the companies in which the Group invested and those of the industry, tested the calculation of the realisable values of such investments by using the selected financial model, and considered the impact of changes in key assumptions on those realisable values, especially changes in the discount rate and long-term revenue growth rates.

## 6. Other information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the auditor's report dated 28 February 2018.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

# 7. Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## 8. Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my report.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

#### 2. Significant current development during the current year

# 2.1 Acquisition of BG Microfinance Myanmar Co., Ltd. by the Company's subsidiary

On 6 December 2016, an Extraordinary General Meeting of the Company's shareholders No.2/2016 passed the resolution to approve GLH's acquisition of 1,387,680 ordinary shares of BG Microfinance Myanmar Co., Ltd. ("BGMM") (or 100% of total paid up share capital in BGMM), at a purchase price equal to USD 5.77 per share or a total of USD 8.01 million (equivalent to approximately Baht 280 million). BGMM is incorporated in the Republic of the Union of Myanmar and engaged in the activity of microfinance business.

The acquisition of this business was completed in early January 2017. GLH received permission to register the transfer right of shares from the Government of the Republic of the Union of Myanmar in January 2017. In consequence, the share subscription payment in advance were reclassified to investment in BGMM in early January 2017.

These consolidated financial statements include the statement of financial position of BGMM as at 31 December 2017 and its profit or loss for the year from the investment date to 31 December 2017. The excess of the purchase price over the fair value of the net assets acquired was recorded as goodwill. However, the Group recorded the assets acquired at their net book value, not fair value. The Group is awaiting the appraisal in order to allocate the fair value associated with the assets. The Group expects to obtain this appraisal and complete the purchase price allocation by first guarter of 2018.

Details of the fair value of identifiable net assets of BGMM, and their net book value, are as follows:

|  | (1         | Unit: Million Baht) |
|--|------------|---------------------|
|  | Fair value | Net book value      |

| Cash paid for acquisition of subsidiary of the Group     | 281        |                     |

The Group incurred subsidiary acquisition-related costs of Baht 2.7 million related to external legal fees and due diligence costs. The legal fees and due diligence costs have been included in administrative expenses in the consolidated income statement.

At present, the Group is in the process of assessing the fair value of identifiable assets acquired and liabilities assumed at the acquisition date. The assessment process is ongoing and mainly relates to the identification and valuation of intangible assets and certain tangible assets. The assessment shall be completed within the measurement period of twelve months from the acquisition date pursuant to the period allowed by Thai Financial Reporting Standard No. 3 (revised 2015).

## 2.2 Establishment of GL-AMMK Co., Ltd. by the Company's subsidiary

On 6 December 2016, the Extraordinary General Meeting of the Company's shareholders No.2/2016 approved the establishment of a company, GL-AMMK Co., Ltd. ("GL-AMMK"). On 24 January 2017, GL-AMMK has received its temporary registration certificate.

GL-AMMK is incorporated and domiciled in Myanmar with registered share capital of MMK 4,080 million, or approximately Baht 104 million. This company was incorporated with the Ministry of Planning and Finance in Myanmar on 24 January 2017.

On 15 March 2017, GL-AMMK was granted permission to operate an Advisory, consultancy, managerial, administrative, technical and operational services business in Myanmar and launched the business operations during the first quarter of 2017.

## 2.3 Cancellation of side agreement with Engine Holding Asia Pte. Ltd.

On 19 June 2017, the Board of Director's Meeting of the Company acknowledged the management approval for the cancellation of the side agreement made with Engine Holding Asia Pte. Ltd. ("EHA") to hedge foreign exchange risk for USD 130 million of convertible debentures issued to JTrust Asia Pte. Ltd., whereby the forward exchange rate is fixed at Baht 34.78 per 1 USD, as disclosed in Note 7, with the effective date being 19 May 2017. The objectives of the side agreement cancellation are to allow the USD exchange rate to float and to adopt hedge accounting for the Company's net investment in foreign operations. There was no penalty as a result of the cancellation of side agreement that would have an impact on the income statements for the current year.

# 2.4 Loan reallocation and adoption of hedge accounting for net investment in foreign operations

On 19 June 2017, the Board of Director's Meeting of the Company approved the following significant transactions.

- Approved the reallocation of the loans to subsidiaries in order to reorganise the group's capital structure before the adoption of hedge accounting and to manage the group's excess liquidity, with an effective date of 20 June 2017.

- As at 20 June 2017, the outstanding principal amounts of loans from the Company to GLH were USD 97.6 million and Baht 3,158.9 million. The management approved the reallocation of USD 97.6 million and Baht 2,240.1 million to equity loans as equity loans as part of net investment in foreign operations and Baht 918.8 million to short-term loan that would be settled in the foreseeable future. In addition, on 30 June 2017, the Company amended the loan agreements, whereby the loan of Baht 2,240.1 million was converted into a USD loan of USD 65.9 million, using the exchange rate as of 30 June 2017. The amendment did not result in any gain/loss on exchange which would have an impact on profit or loss.

#### Effects of loan reallocation arrangement

As a result of the loan reallocation, when the Company receives payment of accrued interest receivables and loans on the settlement date, the effects of cumulative exchange differences arising on the date these accrued interest receivable and loan transactions occurred and until the loan reallocation date are reclassified in the consolidated profit or loss statement, whereas they were previously recorded as gains/losses in the other comprehensive income statement. However, the exchange differences arising from the loan reallocation date to the cash settlement date are still be recognised in the consolidated profit or loss statement. Details of the net effect on cumulative exchange differences are summarised in the table below.

- Approved the Company's adoption of hedge accounting for its net investment in foreign operations, with the effective date being 30 June 2017. The Company hedges currency risk arising from the translation of the financial statements of an overseas subsidiary (i.e. foreign operation) based on the convertible debentures denominated in the same foreign currency. For this purpose, it applies net investment hedge accounting, in which only the spot rate element of the convertible debentures is designated as the hedging instrument. The effectiveness of the Group's hedging transaction is determined on the basis of the convertible debenture rates, using the dollar-offset method. The effective portion of the changes in the value of the convertible debentures is recognised in other comprehensive income (loss) and will not be reversed and recognised in the income statement until it disposes of the foreign operation.
- As at 31 December 2017 the value of the convertible debentures designated as a hedging instrument, translated using the spot rate, was Baht 6,473.46 million, and a resulting unrealised gain of Baht 257.87 million was recognised in other comprehensive income (loss) for the year ended 31 December 2017 in the consolidated financial statements. In the current year there was no ineffective portion for hedges of the net investment in foreign operations, and the interest expense of Baht 311.82 million arising in connection with the convertible debentures was recognised under finance cost in the consolidated financial statements.

#### 3. Basis of preparation

3.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development dated 11 October 2016, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.
- e) The assets and liabilities in the financial statements of overseas subsidiary companies are translated to Baht using the exchange rate prevailing on the end of reporting period, and revenues and expenses translated using monthly average exchange rates. The resulting differences are shown under the caption of "Exchange differences on translation of financial statements in foreign currency" in the statements of changes in equity.
- f) Material balances and transactions between the Company and its subsidiary companies have been eliminated from the consolidated financial statements.
- g) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.
- 3.3 The separate financial statements present investments in subsidiaries and associates under the cost method.

#### 4. New financial reporting standards

#### (a) Financial reporting standards that became effective in the current year

During the year, the Company and its subsidiaries have adopted the revised financial reporting standards and interpretations (revised 2016) and new accounting treatment guidance which are effective for fiscal years beginning on or after 1 January 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company and its subsidiaries' financial statements.

#### (b) Financial reporting standards that will become effective in the future

During the current year, the Federation of Accounting Professions issued a number of revised financial reporting standards and interpretations (revised 2017) which are effective for fiscal years beginning on or after 1 January 2018. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes and clarifications directed towards disclosures in the notes to financial statements.

The management of the Company and its subsidiaries believe that the revised financial reporting standards will not have any significant impact on the financial statements when they are initially applied.

#### 5. Significant accounting policies

#### 5.1 Revenue recognition

a) Hire purchase interest income

Hire purchase interest income is recognised as income over the period of payment, using the effective rate method, with income recognised when the installments fall due irrespective of when actual collection is made. However, recognition of interest income is ceased for receivables which have defaulted on more than 4 scheduled installment payments.

b) Asset - backed loan interest income

Asset - backed loan interest income is recognised as income over the period of payment, using the effective rate method, with income recognised when the installments fall due irrespective of when actual collection is made. However, recognition of interest income is ceased for receivables which have defaulted on more than 4 scheduled installment payments.

c) Microfinance interest income

Microfinance interest income is recognised as income over the period of payment, using the effective rate method, with income recognised when the installments fall due irrespective of when actual collection is made.

d) Consumer finance under joint financing arrangements interest income

Consumer finance under joint financing arrangements interest income is recognised as income over the period of payment, using the effective rate method, with income recognised when the installments fall due irrespective of when actual collection is made. Consumer finance interest income is presented in the statement of profit or loss after deducting the financing portions belonging to other parties participating to these joint financing transactions. Unearned consumer financing income represents the difference between the total installment payments to be received from a consumer and the principal amount financed, and is recognised as income over the term of the contract based on effective interest rate of the related consumer finance receivables under joint financing arrangements.

e) Interest on loan receivables

Interest on loan receivables is recognised as income on an accrual basis, based on the interest rate of contract agreement.

f) Sales of goods

Sales of goods are recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Sales are the invoiced value, excluding value added tax, of goods supplied after deducting discounts and allowances.

g) Penalty income

Penalty income is recognised when received.

h) Consultation service fee income

Consultation service fee income is recognised when services have been rendered taking into account the stage of completion.

i) Other fee income

Fee for other services is recognised as income on an accrual basis.

j) Interest income

Interest income is recognised on an accrual basis based on effective interest rate.

k) Dividends

Dividends are recognised when the right to receive the dividends is established.

## 5.2 Expense recognition

#### a) Interest expenses

Interest expenses are charged to expenses on an accrual basis. Interest included in face value of note payable is amortised to expenses evenly throughout the term of the notes.

b) Commissions and direct expenses of the hire purchase business

The Company and its subsidiaries recorded the initial commissions and direct expenses arising in respect of hire purchase contracts, by the effective interest method, and deducting them from unearned income over the installment period to reflect the effective rate of return of hire purchase agreements.

Unearned interest income is stated net of commissions and direct expenses incurred at the initiation of the hire purchase contract.

## 5.3 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

# 5.4 Hire purchase and installment sales receivables/ Asset-backed loan receivables and allowance for doubtful accounts

Hire purchase and installment sales receivables are stated net of unearned hire purchase interest income and allowance for doubtful accounts.

Asset-backed loan receivables are stated net of unearned interest income and allowance for doubtful accounts.

The Company and its subsidiaries provide allowance for doubtful accounts for hire purchase receivables and asset-backed loan receivables based on the estimated collection losses that may be incurred in collection of receivables, by considering of the current status of receivables, their ability to make payment, past experience and historical data on actual losses on collection.

#### 5.5 Microfinance receivables and allowance for doubtful accounts

Microfinance receivables are stated net of unearned interest income and allowance for doubtful accounts.

The subsidiary provides allowance for doubtful accounts for microfinance receivables based on the estimated collection losses that may be incurred in collection of receivables, taking into account the current status of receivables, their ability to make payment, past experience and historical data on actual losses on collection.

# 5.6 Consumer finance receivables under joint financing arrangements and allowance for doubtful accounts

In joint financing arrangements between the subsidiary and the joint financing facility provider, provider's financing portion is maximum of 95% from the total amount to consumer and the subsidiary's financing portion is 5% or the remaining amount. The subsidiary will comply with terms and conditions including obligation as detailed in the consumer financing agreement. The subsidiary has the right to set higher interest rates to consumer than the interest rates stated in the joint financing agreement with the joint financing facility provider. For all joint financing contracts entered by the subsidiary, the financing portion of the total installments financed by the subsidiary is recorded as consumer finance receivables in the statement of financial position (net approach off joint financing arrangement).

Consumer finance receivables are stated net of unearned interest income and allowance for doubtful accounts.

The subsidiary provides allowance for doubtful accounts for consumer finance receivables based on the estimated collection losses that may be incurred in collection of receivables, by considering the current status of receivables, their ability to make payment, past experience and historical data on actual losses on collection.

Write-offs are considered for consumer finance receivables with installments overdue more than 720 days, with write-offs approved by the subsidiary's Board of Directors. Recoveries from written-off receivables are recognised as other income upon receipt.

#### 5.7 Loan receivables and allowance for doubtful accounts

Loan receivables are stated at the principal amount and accrued interest receivables net of allowance for doubtful accounts (if any).

The Company and its subsidiaries provide allowance for doubtful accounts for loan receivables based on the amount of the debts that the Company expects to be recoverable in the future in comparison with the collateral value, and the amount of debts that may not be collectible, which is generally determined on the basis of collection experience and analysis of debt aging.

#### 5.8 Inventories

Finished goods are valued at the lower of cost (under the specific identification method) and net realisable value.

## 5.9 Assets foreclosed

These represent assets repossessed from hire purchase receivables and are stated at the lower of cost (which mostly comprises the net outstanding balance) and estimated net realisable value. Allowance is made for the decline in value of the repossessed assets.

## 5.10 Investments

- a) Investment in convertible debentures are determined into the debt and equity components at the date of issue. The debt component is recognised initially at its fair value. Investments in debt components, both due within one year and expected to be held to maturity, are recorded at amortised cost. The premium/discount on debt component is amortised/accreted by the effective rate method with the amortised/accreted amount presented as an adjustment to the interest income. The equity component is the residual amount of the convertible debentures after deducting the fair value of the debt component. The equity component is recognised at cost net of allowance for impairment loss (if any).
- b) Investments in non-marketable equity securities, which the Company classifies as other investments, are stated at cost net of allowance for impairment loss (if any).
- c) Investments in associates is accounted for in the consolidated financial statements using the equity method.
- d) Investments in subsidiaries are accounted for in the separate financial statements using the cost method.

The weighted average method is used for computation of the cost of investments.

On disposal of an investment, the difference between net disposal proceeds and the carrying amount of the investment is recognised in profit or loss.

#### 5.11 Property, plant and equipment/Depreciation

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any). The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, improvements and renewals are capitalised, while expenditures for maintenance and repairs are charged to profit or loss.

Depreciation of buildings and equipment is calculated by reference to their costs on a straight-line basis over the following estimated useful lives:

|                                     | Useful lives   |
|-------------------------------------|----------------|
| Buildings                           | 20 years       |
| Building improvement and lease area | 5 and 10 years |
| Furniture and office equipment      | 5 and 10 years |

Building improvement and lease area are charged to profit or loss over the lease period.

Depreciation for computers, equipment and motor vehicles is calculated by the reference to their costs, using the sum of the years' digits method over useful lives of 3 - 5 years.

Depreciation is included in determining income.

No depreciation is provided for land.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

## 5.12 Intangible assets

Intangible assets acquired through business combination are initially recognised at their fair value on the date of business acquisition while intangible assets acquired in other cases are recognised at cost. Following the initial recognition, the intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses (if any). Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible asset are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows.

|                           | Useful lives      |
|---------------------------|-------------------|
| Exclusive right agreement | 5 years 10 months |
| Computer software         | 3 and 10 years    |

## 5.13 Computer software

Costs associated with maintaining computer software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Group are recognised as intangible assets when the following criteria are met:

- It is technically feasible to complete the software product so that it will be available for use;
- Management intends to complete the software product and use or sell it;
- There is an ability to use or sell the software product;
- It can be demonstrated how the software product will generate probable future economic benefits;
- Adequate technical, financial and other resources to complete the development and to use or sell the software product are available; and
- The expenditure attributable to the software product during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software product include the software development employee costs and an appropriate portion of relevant overheads.

Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an intangible asset in a subsequent period.

Computer software development costs are recognised as assets are amortised over their useful lives, which does not exceed 3 - 10 years.

#### 5.14 Business combination

The cost of an acquisition is measured at fair value which is the amount of cash or cash equivalents, or the fair market value of any other consideration given as determined at the date of acquisition.

For investment in subsidiaries, the Company and its subsidiaries account for acquisition-related costs such as professional fees and other consulting fees, as expenses in the period in which the costs are incurred and the services are rendered.

For investment in associates the Company and its subsidiaries account for acquisition-related costs such as professional fees and other consulting fees, as part of the cost of investment in the associate.

At the acquisition date, the Company measures components of non-controlling interests amount by identifying the acquiree's net assets to the present proportionate share.

## 5.15 Goodwill

Goodwill is initially recorded at cost, which equals to the excess of cost of business combination over the fair value of the net assets acquired. If the fair value of the net assets acquired exceeds the cost of business combination, the excess is immediately recognised as gain in profit or loss.

Goodwill is carried at cost less any accumulated impairment losses. Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the Company's cash generating units (or group of cash-generating units) that are expected to benefit from the synergies of the combination. The Company and its subsidiaries estimate the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in profit or loss. Impairment losses relating to goodwill cannot be reversed in future periods.

#### 5.16 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associated companies, and individuals or enterprises which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors and officers with authority in the planning and direction of the Company's operations.

## 5.17 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency. Items of each entity included in the consolidated financial statements are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

## 5.18 Hedge accounting - Hedge of net investment in foreign operation

The Company applies hedge accounting when the risk that has been hedged can be clearly identified and the effectiveness of the hedge can be measured.

Foreign financial liabilities are used to hedge a net investment in a foreign operation including hedges of monetary items that are accounted for as part of the net investment to hedge the currency risk arising on exchange differences from translation of a foreign subsidiary's financial statements into the Group's reporting currency. The effective portion of a change in the value of a financial liability is initially recognised in other comprehensive income (loss) and will not be reclassified to the income statement until the foreign operation is disposed of. The ineffective portion of the changes in fair value is recognised immediately in the consolidated income statement.

However, if the criteria for hedge accounting are not satisfied, any gains or losses from changes in the fair values of foreign financial liabilities are recognised immediately in the consolidated income statement.

#### 5.19 Impairment of assets

At the end of each reporting period, the Company and its subsidiaries perform impairment reviews in respect of the property, plant and equipment and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. The Company and its subsidiaries also carry out annual impairment reviews in respect of goodwill and intangible assets with indefinite useful lives. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available, reflects the amount that the Company could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

An impairment loss is recognised in profit or loss.

## 5.20 Employee benefits

#### Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

#### Post-employment benefits

#### Defined contribution plans

The Company and its employees have jointly established a provident fund. The fund is monthly contributed to by employees and by the Company. The fund's assets are held in a separate trust fund and the Company's contributions are recognised as expenses when incurred.

## Defined benefit plans

The Company has obligations in respect of the severance payments it must make to employees upon retirement under the Thai labor law. The Company treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from post-employment benefits are recognised immediately in other comprehensive income.

# 5.21 Provisions

Provisions are recognised when the Company has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

## 5.22 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

## **Current tax**

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

## **Deferred tax**

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Company and its subsidiaries recognise deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Company and its subsidiaries review and reduce the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company and its subsidiaries record deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

#### 5.23 Financial derivatives - Interest rate swap contracts

Derivative financial instruments are used to manage exposure to interest rate risks arising from financing activities. Derivative financial instruments are not used for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments.

Derivatives are recognised initially at fair value; attributable transaction costs are recognised in profit or loss when incurred. Subsequent to initial recognition, they are remeasured at fair value. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged (see note 5.18).

The fair value of interest rate swaps is based on broker quotes at the reporting date. Those quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the reporting date.

#### 5.24 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company and its subsidiaries apply a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company and its subsidiaries measure fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Company and its subsidiaries determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

## 6. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

## Leases

In determining whether a lease is to be classified as an operating lease or finance lease, the management is required to use judgement regarding whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

## Allowance for doubtful accounts

In determining an allowance for doubtful accounts, the management has estimated the percentage of the allowance for doubtful accounts for each age of receivable on the basis of historical statistical data, assessment of the risk associated with the receivable, the nature of the collateral provided, and actual losses arising from such debtors in the past, while emphasising the principal of conservatism.

## Diminution in value of assets foreclosed

In determining diminution in value of assets foreclosed, management applies judgement in estimating the anticipated losses on such assets, based on analysis of various factors, including net realisable value, historical sales data, the age of the assets and the prevailing economic condition.

#### Fair value of financial instruments

In determining the fair value of financial instruments recognised in the statement of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercise judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk (bank and counterparty, both) liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these factors could affect the fair value recognised in the statement of financial position and disclosures of fair value hierarchy.

## Impairment of equity investments

The Company treats other investments as impaired when there has been a significant or prolonged decline in the fair value below their cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires judgement of the management.

## Property plant and equipment/Depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes. In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

## Goodwill and intangible assets

The initial recognition and measurement of goodwill and intangible assets, and subsequent impairment testing, require management to make estimates of cash flows to be generated by the asset or the cash generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

#### **Deferred tax assets**

Deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that taxable profit will be available against which the temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

#### Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

#### Litigation

The Company and its subsidiary have contingent liabilities as a result of litigations. The Company's management has used judgement to assess of the results of the litigation, as disclosed in Note 48.

## **Referral Business Agreement**

On 1 September 2016, GLF entered into a Referral Business Agreement with GLH to refer customers to GLH through its business activities in Cambodia. GLH entered into a loan agreement with a group of companies that have business relationships with GLF in Cambodia, whereby GLH is to pay fees to GLF at a rate of 1% of monthly interest income on the loans GLH provides to the group of companies through referrals by GLF.

The relationship between the Company and the related parties are summarised below.

On 27 July 2016, GLF entered into an agreement with a related party which required to pay deposit to them for the estimated prices of assets to be leased.

As at 31 December 2017, deposit of assets to be leased as presented under the caption of other current assets before allowance for doubtful accounts in the consolidated financial statements, totaling USD 3.9 million (2016: USD 4.9 million).

Reference is made to the revelation by The Securities and Exchange Commission, Thailand ("SEC") of information regarding investigation on a former executive director of the Company by a governmental regulatory authority, according to SEC News Releases No. 95/2017 and 97/2017. Pursuant to the fact that such issue might significantly affect the image of the Company and confidence of investors, the management of the Company has considered and decided that it might be favorable for the Company to set up certain provisions for doubtful accounts from other receivables and other net current assets which are relating to the former executive director of the Company in order to demonstrate transparency and good governance in the Company's operations, as well as integrity to investors which will benefit the investors in their consideration of the Company's status. The details of all provisioned items are listed in the table below:

# Side agreements and corporate guarantee for convertible debentures - related party

During the year 2016, the Company issued the convertible debentures in foreign currencies as disclosed in Note 30. The Company entered into the related agreement to hedge foreign exchange risk as the following:

During the year 2016, the Company entered into a side agreement with Engine Holding Asia Pte. Ltd. ("EHA") to hedge foreign exchange risk for USD 130 million of convertible debentures issued to JTrust Asia Pte. Ltd., whereby the forward exchange rate is fixed at Baht 34.78 per 1 USD and the selling exchange rate announced by the Bank of Thailand at the end of each month is applied to interest on the convertible debentures. If the exchange rate per the side agreement differs from the rate applicable on the date the convertible debentures are redeemed and principal and interest are paid, to JTrust Asia Pte. Ltd., EHA will receive or pay the difference.

In addition, EHA entered into a corporate guarantee with its major shareholder, Wedge Holdings Co., Ltd., to provide a guarantee for EHA's obligations under the side agreements. If EHA is unable to comply with the side agreements, Wedge Holdings Co., Ltd. undertakes to compensate the Company for any exchange losses instead of EHA.

The side agreements and the letter of guarantee stipulate that no fees will be collected from the counterparty.

As disclosed in Note 2.3, on 19 June 2017, the Board of Director's Meeting of the Company acknowledged the management approval for the cancellation of side agreements with EHA with the effective date on 19 May 2017 in order to allow the USD exchange rate to float and to adopt hedge accounting for the Company's net investment in foreign operations. There was no penalty as a result of the cancellation of side agreement that would have an impact on the income statement for the current year.

9.4 On 30 April 2004, the Institute of Certified Accountants and Auditors of Thailand, with the approval of the Office of the Securities and Exchange Commission, stipulated an accounting guideline for the consumer finance business, whereby recognition of revenue is to cease for accounts receivable which are overdue by more than 3 installments. However, this accounting guideline provides an alternative whereby, in cases where a company believes that the guideline would not be appropriate, it is to disclose the method it uses. The Company has a policy to cease recognising revenue from hire purchase receivables which are overdue by more than 4 installments. As at 31 December 2017 and 2016, there are outstanding hire purchase receivable amounting to approximately Baht 241 million and Baht 214 million, respectively (the Company only: Baht 214 million and Baht 200 million, respectively) for which installment payments are more than 3 installments overdue but for which revenue is still being recognised.

In addition, if the Company and its subsidiaries had followed this accounting guideline, the amount of revenue recognised for the year ended 31 December 2017 and 2016 would be reduced by Baht 6 million and Baht 5 million, respectively (the Company only: Baht 5 million and Baht 5 million, respectively).

- 9.5 Hire purchase agreements of the Company and its subsidiaries have terms of6 months to 5 years and require settlement in equal installments.
- 9.6 As at 31 December 2017 and 2016, the Company and its subsidiaries had transferred rights of claim under hire purchase agreements with outstanding balances (net of unearned hire purchase interest income) of Baht 69 million and Baht 1,360 million, respectively (the Company only: Baht nil million and Baht 1,329 million, respectively), in order to secure credit facilities granted by commercial banks as disclosed in Notes 25 and 28.

10.4 On 30 April 2004, the Institute of Certified Accountants and Auditors of Thailand, with the approval of the Office of the Securities and Exchange of Commission, stipulated an accounting guideline for the consumer finance business, whereby recognition revenue is to cease for accounts receivable which are overdue by more than 3 installments. However, this accounting guideline provides an alternative whereby, in cases where a company believes that the guideline would not be appropriate, it is to disclose the method it uses. The Company and its subsidiaries has a policy to cease recognising revenue from asset-backed loan receivables which are overdue by more than 4 installments. As at 31 December 2017 and 2016, there are outstanding assetbacked loan receivables amounting to approximately Baht 16 million and Baht 10 million, respectively, for which installment payments are more than 3 installments overdue but for which revenue is still being recognised.

In addition, if the Company and its subsidiaries had followed this accounting guideline, the amount of revenue recognised for the year ended 31 December 2017 and 2016 would be reduced by Baht 0.4 million and Baht 0.3 million, respectively.

- 10.5 The subsidiaries' loan agreements have terms of 1 5 years and require settlement in equal installment.
- 10.6 As at 31 December 2017 and 2016, the Company's subsidiary had transferred rights of claim under loan agreements with outstanding balances (net of unearned interest income) of Baht 49 million and Baht 52 million, respectively, in order to secure credit facilities granted by commercial bank as disclosed in Note 28.

- 12.4 The subsidiary's loan agreements have terms of 2 to 4 years for consumer finance receivables under joint financing arrangement and require settlement in equal installment.
- 12.5 As at 31 December 2017 and 2016, the Company's subsidiary had transferred rights of claim the assets of debtor for the portions financed by bank under hire purchase agreements under joint financing arrangements with outstanding balances (net of unearned interest income) of IDR 153,322 million and IDR 23,559 million, respectively, in order to secure joint financing facilities granted by related commercial bank.

As at 31 December 2017, the Company's subsidiary had transferred rights of claim under Microfinance agreements under joint financing arrangements with outstanding balances (net of unearned interest income) of IDR 2,354 million, in order to secure credit facilities granted by commercial bank. 12.6 A subsidiary entered into a joint financing facility agreement with a related - commercial bank to obtain revolving joint financing facilities of IDR 100,000 million. Moreover, during the year 2017, the subsidiary entered into an additional joint financing facility agreement, for non-revolving joint financing facilities amounting to IDR 200,000 million. The purpose of these joint financing agreements is to provide loans to consumers for purchases of agricultural machinery and tools, vehicles, solar panels and white goods. The duration of the agreements is 72 months from the first draw down, or for as long as both parties are willing to continue the agreements. The interest rates are 13% per annum. This joint financing agreement is sharing capital contribution between the subsidiary and commercial bank to finance each debtor according to agreed portion and secured by assets being financed by subsidiary and commercial bank. As at 31 December 2017 and 2016, the credit facilities under the joint financing agreements which have not yet been drawn down amounted to IDR 137,235 million and IDR 76,790 million, respectively.

From November 2017, the Joint Financing arrangements have temporarily been suspended by the action of Jtrust Group. This action is not affecting the existing portfolio but has an effect on the new portfolio of PT GLFI. The agreement on the Joint financing credit facilities is in force and will resume its activity once legal proceedings are overcome.

#### 13. Loans and interest receivables

The Company provided loans to its subsidiary in Singapore, which in turn loaned to borrowers in Cyprus and Singapore. The composition of these receivables is as follows:

The loans of subsidiary company were subject to pledging of securities of properties in Cyprus and Brazil, Cypriot government bonds, stocks of other overseas companies and shares of the Company as owned by the borrowers. In the second quarter of 2017, part of the collaterals of the Company's shares was released by Singapore group and replaced by the value of properties in Japan (the pledge of the properties in Japan has been registered with Japanese Registry Office already). In the third quarter of 2017, some loans became due and others were prepaid. The Company's shares as collateral have been fully released as of 31 December 2017, meaning there are no longer any Company's shares pledged as securities for any of the remaining loans.

The collaterals as of 31 December 2016 covered 112 percent for the Cyprus borrowers and 244 percent for the Singapore borrowers (including the shares of the Company, which were valued at the closing price quoted in the Stock Exchange of Thailand). On 31 December 2017, the collaterals of the Singapore borrowers covered 124 percent (based on the valuations done in 2017 and confirmed for 31 December 2017) and for the Cyprus borrowers 292 percent (based on the valuations done for 31 December 2016). No updated valuations for the Cyprus borrowers' collaterals has been obtained as at 31 December 2017.

The terms of the loans granted vary from 3 months to 3 years. All principals are due upon maturity, while some loan principals that originally came due last year were rolled over and extended to the periods of either 2 or 3 years. The balance of loans rolled over in 2016 was USD 59 million or approximately Baht 2,129 million, accounting for 60 percent of the total loan debts. In 2017, before due date, the Cyprus borrower repaid the loans of USD 25.3 million or approximately Baht 845 million.

The interest rates charged under the loan agreements were in the range of 14.5 percent to 25.0 percent per annum. The interest earned during this year from these loans amounted to USD 11 million or approximately Baht 377 million. The interest was ceased to be recognised on 1 October 2017. The accrued interest until 30 September 2017 was subject to an allowance setup in the same amount for both the Singapore and Cyprus borrowers as at 31 December 2017.

In July 2017, August 2017 and due date, the Singapore borrower repaid the loans of USD 16.7 million or approximately Baht 557 million and the remaining of the collateral of the lenders shares was also released.

The Company believes that the borrowers are well established and trusted corporations. They are not related to the Company and the Company has carried out internal verifications and considers them to be reliable.

The terms and conditions of lending, and the management, monitoring and subsequent modification of the unpaid loans were based on the expertise of the Company's directors and top executives, who have specialized knowledge of the business of these specific borrowers, and their relationships with the borrowers.

On 19 October 2017, the Company received a request from the SEC to revise/correct its financial statements, Annual Registration Statement (Form 56-1) and Annual Report (Form 56-2) in response to the criminal complaint filed by the SEC to the Department of Special Investigation (DSI) on 16 October 2017 against former executive director, in relation to allegations of fraud, misappropriation of the company's assets and falsifying account records by executing concealed transactions through several associated companies abroad to exaggerate the company<sup>-</sup> s operating results. The SEC claimed that the recording of such transactions in the Company's accounts resulted in the Company's financial statements being inaccurate, rendering the Company in breach of Section 56 and/or 312 of the Securities and Exchange Act if they do not rectify their financial statements promptly.

Hence, although the Company could not find any evidence showing any abnormality of the loans, the Company resolved to revise its financial statements as requested by the SEC.

Both the disputed loan and normal loan receivable balances from the Singapore and Cyprus borrowers are current as at 31 December 2017. Reclassifications to current for the non-current loan receivable balances from the Singapore and Cyprus borrowers as at 31 December 2017 as disclosed previously have been done due to the notices sent to the borrowers asking for full repayment by 31 May 2018.

As at 31 December 2017 and 2016, the balances of loans and interest receivables aged on the basis of due dates, are summarised below.

#### Investment in CCF

On 6 December 2016, the shareholders of the Company in the Extraordinary Shareholders' Meeting No. 2/2016 passed a special resolution to allow the Company and/or its subsidiary, Group Lease Holding Pte. Ltd. ("GLH"), to acquire shares in Commercial Credit and Finance PLC ("CCF") which is a company listed on the Colombo Stock Exchange (the "CSE") in Sri Lanka. CCF has been incorporated since 1982, operating businesses of providing leasing, hire-purchase, micro loans, SME loans, educational loans etc. The resolution allowed acquisition of 95,390,500 shares off the stock market, at the price of LKR 111 per share, which was equivalent to 29.99 percent of the total issued shares of CCF, totaling the acquisition price of LKR 10,588 million, equivalent to approximately Baht 2,462 million (this acquisition price excluded associated acquisition-related costs of Baht 26.5 million). 22.27% from the 29.99% was acquired from an existing shareholder of CCF who was also a director of the Company at the time. Later, he resigned from his position, effective from 31 January 2018. The reason was to prevent conflict of interest, since he was also a founder of a convertible debenture holder of the Company, Creation Investment Sri Lanka LLC.

In passing the special resolution mentioned above, the shareholders had considered information on the appropriate acquisition price showing that it fell in the appropriate price range of LKR 83.52 to 114.20 per share (approximately Baht 1,900 - 2,500 million) as determined through studies and analysis conducted during due diligence by a financial advisory in Sri Lanka. The shareholders had also considered the Opinion of the Independent Financial Advisor ("IFA") which determined that the appropriate price was in the range of LKR 70.09 to 73.55 per share (approximately Baht 1,600 - 1,700 million) while the market price at the Sri Lanka Stock Market during the acquisition period in late 2016, the value was at approximately Baht 1,391 million. The appraisers relied on different valuation methods; however, it was noted by both appraisers that approach which determines the value by referring to the market price i. e. market valuation approach is not an appropriate approach for determining the appropriate price price for investment in CCF. In addition, the

shareholders had also considered risks associated with investment in CCF. Details are as appear in the Invitation for and the Minutes of the Extraordinary Shareholders' Meeting No. 2/2016.

The investment in CCF has been presented as investment in associate under the equity method according to the Thai Accounting Standard No.28 Investments in Associates and Joint Ventures, since the Company would be holding the investment in CCF for long-term purpose.

On 31 December 2017, the carrying amount based on equity method of the investment in CCF (before provision for loss) was Baht 2,605 million (or LKR 121.31 per share) while the market price at the Sri Lanka Stock Exchange at the end of 2017, the total value was only in the range of Baht 874 million (2016: Baht 1,285 million). The amount was tested for impairment and no impairment was identified, relying on a valuation conducted by Gajma & Co, one of the leading financial advisor and appraisal firms in Sri Lanka. Upon completion of the valuation, Gajma & Co reached a conclusion that the estimated value of CCF is LKR 175.35 per share. Therefore, the investment in CCF is not impaired.

However, management provided an allowance for loss of investment for the investment in CCF in the amount of Baht 582 million in the Interim Financial Statements for the Three and Nine Months ended 30 September 2017. During this time, management was in the process of conducting the impairment test on the investment in CCF. In addition, there were floods in Sri Lanka at the relevant time which was uncontrollable and was one of factors continuously affecting overall the economy of Sri Lanka which relies greatly agriculture. The management was aware that such circumstance might give rise to concerns in considering the value of the investment in CCF. Therefore, in line with the conservatism principle, the management decided to provide an allowance for loss in investment from the investment in CCF should it be the case. Under the conservatism principle, despite the fact that the impairment test has been completely conducted and no impairment decided to keep, not to reverse the allowance for loss of investment provided as of 30 September 2017.

The management is of the view that the share price traded in the CSE is not and could not appropriately and reliably indicate and determine the fair value of the investment in CCF. Such view aligns with the view of the appraisers as mentioned above. The reasons are that the CSE is not an active market for such shares and is not the market for acquisition of shares in equivalent sufficiently significant proportion.

In any event, the management would consider reversing or adjusting the allowance for loss of investment as necessary or appropriate further.

During 2017, the Group assessed the fair value of the assets acquired and liabilities assumed at the acquisition date, in order to the identification and valuation of goodwill and certain tangible assets. The process was completed in the fourth quarter of 2017.

As at 31 December 2017, the Group have assessed the value which conclude as follows:

### 19.3 Market value/Fair value investments in listed associate

In respect of the investment in the associated company that is listed on the Stock Exchange of Sri Lanka ("CSE"), management and other outside financial advisors have concluded that due to the very low liquidity of the market for CCF on the CSE, the market value of CCF is not considered active and therefore not representative of the fair value. To determine fair value, management hired a financial advisor to perform financial analysis.

## PT Bank JTrust Indonesia Tbk.

On 26 October 2016, the Board of Directors of the Company approved a subsidiary company to acquire shares of PT Bank JTrust Indonesia Tbk. ("PT Bank JTrust") and subsequently on 13 December 2016, the subsidiary company acquired 28.15 trillion shares (3.12% of the total shares) in this company at total cost of USD 11.70 million (Baht 414 million) from JTrust Co. Ltd. - a related company. The remaining portions of approximately 97% being majority shareholding in this company were still held by JTrust Co. Ltd. - a related company were still held by Interview.

As at the acquisition date, the purchase price the subsidiary paid to acquire this investment when compared with the book value of this company represented the ratio of Price per Book Value ("P/BV" ratio) of approximately 3.65 times. As at 31 December 2017, the P/BV ratio increased to 3.95 times while the 'average P/BV ratio' of all commercial banks in Indonesian market was about 1.60 times. The Company's management considers that there is no impairment on this investment due to other favorable factors including profitability ratio and business opportunities of this company in the future. The carrying value of this investment was significantly in excess of the value calculated based on the 'average P/BV ratio' and this difference needs attention.

As at 31 December 2017, the shareholding percentage of PT Bank JTrust held by GLH is 2.81% and the carrying value of this investment was Baht 414 million. The value of this investment depends upon the ability to cooperate with its major shareholder in the future and the success of future operations of this company.

### Exclusive right agreement

A related party entered into a 5-year Exclusive Right Agreement (automatically renewed for a further two years unless the parties mutually agree in writing not to renew the agreement within six months before the termination date) with a company who is the distributor of Honda motorcycles in Cambodia. The agreement grants the related party exclusive rights to act as finance agent arranging hire purchase finance for motorcycles branded "Honda". On 2 May 2012, the related party granted the exclusive rights to GLF for a fee of USD 100,000 and entered into a USD 2.9 million deposit agreement under which the related party is the representative agent to contact with such company. Conditions of the deposit agreement specify that if GLF fails to meet the minimum annual sales target set, the deposit will be forfeited in proportion to the period of six years as from 2013 to 2018.

In 2016 and 2015, GLF has met its sales target and has thus recorded a refund of the deposit equal to the proportion amount set in the agreement. The value of the exclusive right in consolidated financial statements was adjusted accordingly.

The SEC disclosures 95/2017 and 97/2017 disqualified a former executive director of the Company. While the Managements of the Company believes that the exclusive right was entered into under normal business aspects, due to the lack of reachable evidence in hand by the government authorities, the Management has considered the matter and decided to set up an allowance for the full amount of remaining unamortizable intangible asset portion of USD 1.68 million. This is directly linked to the same considerations for the set up of other shareholder-related allowances in terms of prudency during the scrutiny period of the regulating authorities (refer to Note 7 and 49). Should the amount of the deposit be subsequently received, the allowance will be reversed for the amount of money received.

As at 31 December 2017, the value of exclusive right in consolidated financial statement amounted to USD 0.11 million (2016: USD 1.91 million).

## 23. Goodwill

The Company allocated goodwill acquired through business combinations to each of the cash generating units (CGUs) for annual impairment testing as follows:

|          |                    |                    | (Լ              | Init: Thousand Baht) |

The recoverable amount of the CGUs have been determined based on value in use calculation using cash flow projections from financial budgets approved by the management covering a five-year period.

Key assumptions used in value in use calculations are summarised below:

|                        |               |                    |               | (Unit: % per annum) |

The management determined growth rates based on past performance and its expectations of market development and discount rates is pre-tax rate that reflects the risks specific to each CGU.

The management believes that there is no impairment loss for goodwill.

As at 31 December 2017 and 2016, short-term loans from financial institutions are secured by the transfer of rights of claim under hire purchase agreements, the mortgage of land and the construction thereon and/or to be constructed thereon in the future, motorcycle registrations as requested by the lender of the Company and guarantee by subsidiary. The short term loans of subsidiaries are guaranteed by the Company as disclosed in Note 44.4.

## 26. Deposits from customers

The Microfinance Supervisory Committee of the Government of the Republic of the Union of Myanmar issued notification No. 4/2016 on 29 August 2016 detailing new regulations with respect to deposit taking from microfinance customers. This notification applies to BGMM as a deposit taking microfinance institution.

As a result of the notification, all microfinance retail customers are required to contribute a compulsory savings amount when paying for their installments. The total compulsory amount of each customer may not exceed 5% of the loan size. In addition, customers can contribute voluntary savings. BGMM has been notified of the regulating authority visit during this November, which will determine if BGMM has fulfilled all the requirements for taking deposits. In accordance with the notification, the Microfinance Supervisory Committee of the Republic of the Union of Myanmar has set required rates of interest payment to retail customers for BGMM at 15% per annum for compulsory savings and 10% per annum for voluntary savings.

As at 31 December 2017 total deposits, including accrued interest, recorded in BGMM's statement of financial position amounted to MMK 958.4 million (Baht 22.9 million), and these had remaining terms ranging from 6 months to 1 year.

The convertible debentures agreement contains requirements and restrictions with which the Company must comply, as specified in the debentures' offering circular.

On 16 October 2017, the Securities and Exchange Commission ("SEC") has disclosed that SEC has filed a criminal complaint against Mr. Mitsuji Konoshita, the CEO and Chairman of Board of Directors, with the Department of Special Investigation (DSI) for committing fraud, misappropriating the company's assets and falsifying account records by executing concealed transactions through several associated companies abroad to exaggerate the company's operating results. Resulting Mr. Mitsuji Konoshita be liable to having untrustworthy characteristics as a director and executive of any issuers and listed companies and that he was banned from holding such positions under the Securities and Exchange Act.

On 19 October 2017, the SEC followed with a warning to the Company to rectify its Financial Statements immediately.

On 9 January 2018, JTA filed the civil lawsuit against the Company and on 10 January 2018, JTA also filed the petition for rehabilitation against the Company. After the court accept the petition for rehabilitation for its consider, an automatic stay became applicable. However, on 16 February 2018, the Company submitted a petition requesting for entering into transaction and the court grant the Company permission to repay the interest under debentures as disclosed in Note 48.

By these circumstances mentioned above, the Group is aware of the importance of the above situation above and, together with the Group's legal advisors, has considered the likelihood that there has been any breach of covenants or event of default provisions stipulated in any credit facilities agreement with financial institutions and the debenture agreement, including notice to terminate the financial agreement citing cancelation of voidable transactions and demanded immediate repayment and damages, filed a civil case with the civil court against the Company. Management and the legal advisors of the Group believe that the Company is not in breach of any conditions of the agreements with the creditors and has not violated any laws as claimed.

Thai Accounting Standard 107 "Financial Instruments: Disclosure and Presentation", requires the issuer of convertible debentures to present the debentures' liability and equity components separately in the statement of financial position. Therefore, upon issuing the convertible debentures, the Company separated these components, determining the liability component by discounting the stream of future payments of principal and interest at the prevailing market rate. The carrying amount of the equity component was then determined by deducting the liability component from the total carrying value of the convertible debentures.

The liability component is presented at amortised cost until the conversion or maturity of the debentures. The value of the equity component determined upon the issue of the debentures does not change in subsequent periods.

The net proceeds received from the issue of the debentures have been split between a liability component and an equity component, with the liability component representing the initial fair-value of the debt excluding the embedded option to convert the liability into equity of the Company.

#### 41. Earnings per share

Basic earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

Diluted earnings per share is calculated by dividing profit for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year plus the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The calculation assumes that the conversion took place either at the beginning of the year or on the date the potential ordinary shares were issued. The following table sets forth the computation of basic and diluted earnings per share.

However, no calculation of diluted earnings per share for the year ended 31 December 2017 was required for GL-W4 and convertible debentures since the effect of diluted earnings per share is antidilutive.

# 42. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the Board of Directors.

For management purposes, the Company and its subsidiaries are organised into business units based on their services and have five reportable segments as follows:

- Hire purchase and Asset-backed loan services.
- Financing to corporates and investment holding.
- Business management and consulting service.
- Microfinance service.
- Consumer finance service under joint financing arrangements.

No operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss, total assets and total liabilities and on a basis consistent with that uses to operating profit or loss and total assets in the financial statements.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The following tables present revenue and profit, total assets and total liabilities information regarding the Company and its subsidiaries' operating segments for the year ended 31 December 2017 and 2016, respectively.

\*The Company has amended the financial statements for the year 2016 retroactively whereby it has not recognized interest income from Singapore and Cyprus borrowers as revenue. Because the effects of adjustments for the year 2015 for Singapore and Cyprus borrowers were only Baht 11 million and Baht 23 million, respectively, which was regarded by the Company as immaterial. The Company has included the amendment the effect of 2015 revenue to 2016 revenue. This amendment resulted in negative balance for revenue from Cyprus borrowers.

#### 46. Financial instruments

#### 46.1 Financial risk management

The Company's financial instruments, as defined under Thai Accounting Standard No.107 "Financial Instruments: Disclosure and Presentations", principally comprise cash and cash equivalents, short-term investment, hire purchase and installment sales receivables, asset-backed loan receivables, microfinance receivables, consumer finance receivables under joint financing, loans receivables, pledged fixed deposit at financial institution, other receivables, other long term investments, deposits, bank overdraft and short-term loans from financial institutions, Trade and other payables, deposits from customers, short-term loan, long-term loan, debentures, convertible debentures and derivatives liability. The financial risks associated with these financial instruments and how they are managed is described below.

### Credit risk

The Company is exposed to credit risk primarily with respect to hire purchase and installment sales receivables, asset-backed loan receivables and loans receivables. The Company manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. In addition, the Company and its subsidiaries do not have high concentration of credit risk since it has a large customer base. The maximum exposure to credit risk is limited to the carrying amounts of hire purchase and installment sales receivables, asset-backed loan receivables and loans receivables as stated in the statement of financial position.

#### Interest rate risk

The Company and its subsidiaries' exposure to interest rate risk relates primarily to its deposits with financial institutions, hire purchase and installment sales receivables, asset-backed loan receivables, loans receivables, pledged fixed deposit at financial institution, bank overdraft and short-term loans from financial institutions, short-term loan, long-term loan, debentures and convertible debentures. Most of the Company's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate. The Company and its subsidiaries mitigates the risk by ensuring that the majority of its borrowings are at fixed interest rates and uses derivative financial instrument, principally interest rate swaps, to manage exposure to fluctuations in interest rates on borrowings.

As at 31 December 2017 and 2016, significant financial assets and liabilities classified by type of interest rates are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

The methods and assumptions used by the Company and its subsidiaries in estimating the fair value of financial instruments are as follows:

- a) For financial assets and liabilities which have short-term maturity, including cash and cash equivalents, short-term loans to, other receivables, trade and other payables, and short-term loans from, their carrying amounts in the statement of financial position approximate their fair value.
- b) For hire purchase and installment sales receivables and asset-backed loan receivables, fair value is stated net of unearned hire purchase interest income and allowance for doubtful accounts.
- c) For loan receivables, their fair value is estimated by discounting expected future cash flow by the current market interest rate of the loans with similar terms and conditions.
- d) For non-marketable securities, their fair value is estimated by discounting expected future cash flow by capital assets pricing model.
- e) For long-term loans carrying interest approximate to the market rate, their carrying amounts in the statements of financial position approximate their fair value.
- f) For fixed rate debentures and convertible debentures, their fair value is estimated by discounting expected future cash flow by the current market interest rate of the bonds with similar terms and conditions.
- g) For derivatives, their fair value has been determined by using a discounted future cash flow model and a valuation model technique. Most of the inputs used for the valuation are observable in the relevant market, such as interest rate yield curves and commodity price yield curves.

# 47. Capital management

The primary objective of the Company's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value. As at 31 December 2017, the Group's debt-to-equity ratio was 1.51:1 (2016: 1.06:1) and the Company's was 1.57:1 (2016: 1.14:1).

# 48. Clarification on Legal proceeding

At the beginning of January 2018, J Trust Asia Pte. Ltd. ("JTA"), a limited company registered in Singapore, has taken legal actions in Thailand and in Singapore against the Company by filing a civil complaint and filing a petition for rehabilitation of the Company as per the following details:

# 48.1 Litigations in Thailand

1) Civil Case

On 9 January 2018, JTA filed a complaint against the Company, its former executive director and three of its current directors as defendants with the Civil Court, being a civil black case number Por. 83/2561 and the Civil Court scheduled for the first court hearing (i.e. hearing for settlement of issues at dispute) to be on 23 April 2018.

The Company has received a court's summon and copy of the complaint from the Civil Court by posting at registered address of the Company on 11 February 2018. In this regard, the Company has already appointed a lawyer to represent the Company in defending this case.

Pursuant to JTA's complaint (which was amended on 17 January 2018), JTA alleged that the Company and the other defendants jointly conducted fraudulent acts against JTA in relation to the Company's financial status and business profits in order to incentivize JTA to invest in the Company. As a result, legal transactions entered into between JTA and the Company regarding such investments were conducted via declaration of intention as a result of such fraudulent acts or mistake to an essential element regarding the Company's financial status and business profits, and, thus, such legal transactions became voidable. JTA has declared its intention to avoid all transactions concerning investments in the Company and demanded for return of the investments. In addition, JTA alleged that the Company and the other defendants also jointly conducted a wrongful act against JTA. Relying on the aforementioned allegations, JTA filed the complaint demanding the Company and the other defendants to jointly or severally compensate for damages to JTA. The claim amount of this case calculated into THB is an amount of THB 8,020,132,483.88.

Pursuant to the fact that JTA filed the petition for rehabilitation and the Central Bankruptcy Court has accepted the petition for rehabilitation for its consideration on 11 January 2018, the automatic stay is applicable to the Company. This matter will be further discussed in the part of rehabilitation case. By effects of the automatic stay, proceedings in the civil case only in the part against the Company will be temporarily suspended, unless the Central Bankruptcy Court will issue its order otherwise. As the Civil Court deems appropriate, the Civil Court may consider temporary ordering striking the civil case only in the part against the Company out of the Civil Court's case list or may consider ordering postponing the first court hearing and scheduling for new court hearings periodically. These are in order to allow time until the Central Bankruptcy Court renders its order in the rehabilitation case.

An issue of whether the case against the other defendants will be temporarily suspended depends on whether the other defendants request for the Civil Court to suspend the case in the part against them and on the Civil Court's discretion in its consideration on such requests.

2) Rehabilitation Case

On 10 January 2018, JTA filed the petition for rehabilitation of the Company (the "Petition for Rehabilitation") with the Central Bankruptcy Court, being a black case number For. 1/2561, and the Central Bankruptcy Court accepted the Petition for Rehabilitation for its consideration on 11 January 2018. In this regard, the Central Bankruptcy Court scheduled a hearing date for inquiring of the Petition for Rehabilitation to be on 19 March 2018.

The Company has received a court's summon and copy of the Petition for Rehabilitation from the Central Bankruptcy Court. In this regard, the Company has already appointed a lawyer to represent the Company in defending this case. The Company and other creditors of the Company that disagree with the request for the rehabilitation of the Company are entitled to file an objection with the Central Bankruptcy Court by 15 March 2018.

Pursuant to the Petition for Rehabilitation, JTA alleged that JTA was a creditor of the Company for monetary debt incurred due to the avoidance of investment agreements and purchase of convertible debentures in an amount of USD 180,000,000, which could be approximately converted into THB 5,831,298,000, and alleged that the Company was currently in a state of insolvency. However, after consideration by JTA on relevant factors, there were appropriate reasons for the Company to enter into rehabilitation process and there were prospects for rehabilitation of the Company. Therefore, JTA requested the Central Bankruptcy Court to order for the rehabilitation of the Company, and JTA nominated PCL Planner Co., Ltd. as a preparer of the Company's rehabilitation plan.

The Company anticipated that the proceedings in this case from the date of the inquiring of the Petition for Rehabilitation (i.e. 19 March 2018) until the date the Central Bankruptcy Court issues an order in relation to the Petition for Rehabilitation may take at least three to four months. The aforementioned period might alter depending on fixing the dates for presentation of witness and evidence of relevant parties.

After the Central Bankruptcy Court issued an order accepting the Petition for Rehabilitation for its consideration, an automatic stay became applicable to the Company onwards until the Central Bankruptcy Court issues any order prescribed in Section 90/12 of the Bankruptcy Act B.E. 2483. However, the automatic stay does not have the effect of ceasing the business operation of the Company. Thus, the Company can continue its business and conduct any action necessary for its ordinary course of business of the Company.

The significant legal effects of the automatic stay are that, during the period where the automatic stay is being applied, all creditors of the Company will be barred from initiating civil lawsuits in relation to the Company's assets and submitting a statement of claim to arbitrators (for all debts incurred prior to the date the Central Bankruptcy Court issues an order approving the rehabilitation plan). In case where there is any civil case pending consideration by the court or any dispute pending consideration by the arbitrators, those proceedings will be temporarily suspended, unless the Central Bankruptcy Court will issue its order otherwise. Furthermore, the Company is also prohibited from disposing, distributing, transferring, granting a lease, making repayment of debt, creating debts, or performing any action having the effect of creating any encumbrance over its properties, except that such action is necessary for the continuance of normal operation of its business, or that the Central Bankruptcy Court allows for the Company to perform such action on a case by case basis. The aforementioned is in accordance with Section 90/12 (4) and (9) of the Bankruptcy Act B.E. 2483.

In addition, on 16 February 2018, the Company submitted a petition requesting for entering into transaction to the Court for protection of the interests of the investors and shareholders, where the impacts thereof have been considered, and the Court granted the Company permission to repay interest under debentures issued by the Company pursuant to the existing terms and conditions, including execution of relevant documents in relation to such matters whereby those actions are deemed necessary for management of the Company's funds for the continuation of the Company's business operation without Court's approval.

In case where the Central Bankruptcy Court issues its order dismissing the Petition for Rehabilitation, the Company will no longer be subject to the automatic stay and be entitled to enter into any transaction without any condition or limitation.

### 48.2 Litigation in Singapore

1) Legal Proceedings Initiated in Singapore

JTA commenced legal proceedings in the Singapore court against Group Lease Holdings Pte. Ltd. ("GLH"), a wholly-owned subsidiary of the Company registered in Singapore, and a former executive director of the Company, on 22 December 2017. JTA s primary claim is that GLH, had acted in conspiracy with other defendants to injure JTA by inducing them to invest in the Company when the Company s financial position was in fact poorer than represented. Currently, GLH is waiting for the fix schedule from the court.

In this regard, JTA applied for and obtained on 26 December 2017 an *ex parte* interim injunction order restraining GLH (and the former executive director) from dealing with or disposing of its assets in Singapore up to the value of USD 180,000,000 (save allowances for ordinary living and business expenses, and legal fees).

GLH vigorously denies JTA's claims, and has duly engaged lawyers in Singapore to defend against these allegations. Among others, GLH applied to set aside and discharge the *ex parte* interim injunction order.

On 23 February 2018, the High Court granted the GLH's setting aside application and discharged the *ex parte* interim injunction order. Therefore, GLH is no longer under any restraints in relation to the use and/or dealings with its assets in Singapore. As discussed in notes 48.1 and 48.2, the Group is aware of the importance of the above situation above and, together with the Group's legal advisors, has considered the likelihood that there has been any breach of covenants or event of default provisions stipulated in any credit facilities agreement with financial institutions and the debenture agreement, including notice to terminate the financial agreement citing cancelation of voidable transactions and demanded immediate repayment and damages, filed a civil case with the civil court against the Company. Management and the legal advisors of the Group believe that the Company is not in breach of any conditions of the agreements with the creditors and has not violated any laws as claimed.

### 49. Summary of Significant Adjustments

On 8 November 2017, the Board of Directors<sup>,</sup> Meeting of the Company passed a resolution to approve significant adjustment to setting up provisions for all receivables outstanding as of 31 December 2017 related to the Cyprus and Singapore loan borrowers.

The adjustment referred to above is to express an intention of the board of directors of the Company to cooperate with the SEC in eliminating doubt in regard to the loans and interest outstanding and for the benefits of investors in their consideration of the Company<sup>,</sup> s status and to demonstrate transparency and good governance in the Company<sup>,</sup> s operations.

In addition, the Board of Director's Meeting considered and agreed with the opinion of the Group's legal advisories on likelihoods of breach of any covenants or event of default provisions stipulated in any credit facilities agreement with financial institution and debenture agreement including demands and claims as discussed in Note 48. Based on the review, the Group maintained that if did not breach any conditions of such agreements with the creditors and the demands and claims were without merits.

On 13 November 2017, the Board of Directors<sup>,</sup> Meeting of the Company passed a resolution to approve significant adjustments as follows:

- 1) Setting up an allowance for investments loss in an associated company in the consolidated financial statements (refer to note 19 Investment in associate),
- 2) Setting up an allowance for investment loss in GLH on separate financial statements (refer to note 18 Investment in subsidiaries) and
- Setting up an allowance related transaction with former executive director which including the exclusive right between GLF and APFG in the consolidated financial statements (refer to note 7 - Related party transactions).

The adjustment referred to in item 3 is to express an intention of the board of directors to demonstrate transparency in relation to issues involving the former executive director and integrity to investors which will benefit the investors in their consideration of the Company's status. The amounts of adjustments affecting the statements of comprehensive income are summarised below.

# 50. Correction of accounting errors and reclassification of transactions

The Company's financial statements for the years ended 31 December 2017 and 2016 have been prepared and issued on 28 February 2018 and 28 February 2017, respectively.

On 19 October 2017, the Company received a request from the SEC to revise/correct its financial statements, Annual Registration Statement (Form 56-1) and Annual Report (Form 56-2) in response to the criminal complaint filed by the SEC to the Department of Special Investigation (DSI) on 16 October 2017 against former executive director, in relation to allegations of fraud, misappropriation of the company's assets and falsifying account records by executing concealed transactions through several associated companies abroad to exaggerate the company's operating results. The SEC claimed that the recording of such transactions in the Company's accounts resulted in the Company's financial statements being inaccurate, rendering the Company in breach of Section 56 and/or 312 of the Securities and Exchange Act if they do not rectify their financial statements promptly.

Hence, although the Company could not find any evidence showing any abnormality of the loans, the Company resolved to revise its financial statements as requested by the SEC.

These Financial Statements and Notes have been revised with the provisions set forth in TAS 8. Specifically, given the timeline set out above, the Company has applied TAS 8.42 by revising the material prior period errors in the set of Financial Statements as at 31 December 2017. Furthermore, the Company has also restated the comparative amounts for prior periods to present fairly the cumulative effect of the error restatement.

The cumulative effects of financial statements for the years ended 31 December 2017 and 2016, presented herewith for comparative purposes, are as follows:
