RE: Clarify the news on Khao Hoon Newspaper regarding the projected net profit of QT1/16

With reference to the news published on today's Khao Hoon Newspaper stating that the Company targeted its QT1/16 net profit at 200 MB, we would like to refuse the news that we are not the one who mentioned such figure.

In fact, the Company has announced its fiscal year 2015 net profit yesterday which shows that in QT4/2015, we made a net profit of about 193 million Baht and there is a possibility that the news receiver may project our future net profit based on such figure.

Please be informed accordingly.

Best regards,

Mr. Tatsuya Konoshita

Director
